13TH YEAR. NO. 310.

TOWN SHELLED.

Spanish Advances Say Baiquiri Was Bombarded.

NAVY AWAITS THE ARMY.

The Ships Have Battered Down Fortifications, Preparatory to Invasion.

MAY FORCE SANTIAGO CHANNEL.

Believed That the Landing of the Troops Will Be Followed by an Entrance, to Compel Admiral Cervera to Make a Stand—Guantanamo Under Control of the Fleet and the Landing of Marines at That Point Is Expected to Occur Simultaneously With the Landing of Troops at Santiago.

HAVANA, June 11.—Several American warships bombarded Baiquiri, some distance east of Aguadores and near the railway line to Santiago de Cuba, yesterday.

Official advices from Santiago say that the bombardment "caused no damage."

Baiquiri is a mining locality, and some of the mines are under American control.

At the palace it is denied that there was any bombardment of the Santiago fortifications yesterday.

ON BOARD DISPATCH BOAT WANDA, OFF SANTIAGO DE CUBA, June 9, via Kingston, Jamaica, June 11.—It is believed the navy will follow the landing of troops by forcing the passage of the narrow channel leading to the harbor of Santiago de Cuba, fishing up the sunken mines and compelling Admiral Cervera to make a stand.

If the destruction of the Spanish fleet is successfully carried out it will end the last vestige of Spanish dominion in Eastern Cuba. The harbor of Guantanamo is completely under the control of the American fleet and the landing of marines at that point is expected to occur simultaneously with the landing of troops at Santiago de Cuba.

ON BOARD THE DISPATCH BOAT WANDA, Off Santiago de Cuba, June 9, via Kingston, Jamaica, June 11.—The navy awaits the army.

The fighting ships of Rear Admiral Sampson and Commodore Schley have battered down the coast defenses of Southern Cuba and have sealed up Admiral Cervera's fleet in the harbor of Santiago de Cuba by sinking the collier Merrimac in the channel at its entrance, which the guns of the fleet cover unceasingly. Scout boats, running under the shadows of El Morro, have cut the Haitian cable and now hold 35 miles of the coast east of Santiago de Cuba, including Guantanamo harbor. Under the cover of the guns of the fleet Eastern Cuba may be safely invested by land and sea, Admiral Cervera's fleet annihilated and the entire province and its towns and harbors seized and held after a short campaign.

The harbor of Guantanamo is a fine base for land and sea operations. The harbor is capacious and has 40 feet of water. The land approaches are not so precipitous as at Santiago de Cuba. The low lying hills can be easily crossed with trains of siege guns, and there are level roads to Santiago, 33 miles distant, where a few mountain batteries, beyond the reach of the fleet, will be taken to an eminence commanding the city and the Spanish ships.

Guantanamo is an important place. It has six miles of water harbor and will be of great value to the United States as a navy and army supply station, coaling depot and cable terminus.

The Spaniards made but slight defense. Their batteries were silenced on Tuesday by the Marblehead in a few minutes' firing at 4,000 yards. A small Spanish gunboat ran into the inner harbor.

The Oregon, Marblehead and Yankee hold the harbor waiting to land marines.

The navy's work has been done well. Daily and nightly ships patrol the 30 miles of coast, within easy gun range of the shore.

This morning the New York, New Orleans and Porter were close in shore off Baiquiri, east of Santiago, where there are extensive ironworks. A large iron pier offers an excellent landing place. Possibly one detachment of troops will land there, another force may land west of El Morro and a third body of troops may land at Guantanamo.

SPANISH PREPARING.

May Make a Desperate Resistance—Boat From United States Fleet Lands Arms For Insurgents.

ON BOARD THE DISPATCH BOAT WANDA, Off Santiago de Cuba, June 9, via Kingston, Jamaica, June 11.—In Santiago de Cuba there are now about 20,000 Spanish soldiers, chiefly infantry, with a fair contingent of cavalry and

field artillery drawn from the surrounding country.

There have been signs indicating that the Spaniards are preparing a desperate resistance.

The insurgents, about 5,000 strong, have taken a position on a mountain to the westward. Two thousand insurgents of this gathering are unarmed. General Maximo Gomez, now about 150 miles inland, is making his way toward the coast. Admiral Sampson is actively co-operating with the insurgents.

The Vixen landed 300,000 rounds of small arms ammunition, 300 Springfield rifles, 100 carbines, 2,000 machetes, with equipments and provisions. These were handed over yesterday (Wednesday) about 15 miles west of Santiago to some 800 insurgents who came down to the beach, the main body remaining in the mountains.

The Cubans were hard up for supplies and ammunition and were overjoyed at the sight of the Suwanee's cargo. Some, almost ravenous, hacked at the slices of bacon and ate raw beef. They had been living on limes, coconuts and sweet potatoes. Ensign Gilpin of the Suwanee went ashore and accompanied the Cubans to their temporary camp inland, where he found ten or a dozen wounded men badly in need of surgical attendance. Bandages for them were sent from the Suwanee.

Ensign Gilpin said in part:

"I found the insurgents a rough looking and mixed lot of boys and old men, rigged out any way, carrying arms of all sorts, and all anxious to borrow everything I had, from my blouse to my revolver. Four Spanish soldiers in uniform, carrying rifles, marched into the camp while I was there and said they wanted to join the insurgents."

Conservative authorities believe the United States troops will have to carry out their plan of campaign without placing much reliance upon the insurgents. Several plucky young officers, like Ensign Gilpin, have made trips ashore and taken observations of the interior harbor and the fortifications, seeing Admiral Cervera's four ships.

HAWAIIAN ANNEXATION.

Senator Frye Hopes to Secure Action in the Senate.

WASHINGTON, June 11.—Senator Frye, who in the absence of Senator Davis, is acting as chairman of the senate committee on foreign relations, said yesterday that he would ask the senate to take up the Hawaiian annexation resolution as soon as it should pass the house. He thinks it will be possible to get the resolution up next Thursday and expresses the opinion that the senate can be held in session long enough to secure action.

The advocates of annexation appreciate that the contest they will have to make will be against the general desire to adjourn, which is great because of the weather and the fact that the session has already been somewhat prolonged. They have, however, looked the situation over carefully and express the opinion that a majority of the senators will agree to remain.

In this struggle they are counting advisedly upon the active co-operation of the president. It is possible that a message may be sent to congress urging action before adjournment, but this point has not yet been decided.

OUTBREAK OF YELLOW FEVER.

Steps Taken to Prevent an Epidemic in the South.

WASHINGTON, June 11.—There is some apprehension here over the outbreak of seven cases of yellow fever at McHenry, Miss., and steps have been taken not only to check the spread of the fever from McHenry, but to prevent any possibility of an epidemic in the south.

MISS LONG TO NURSE.

The Secretary's Daughter and Several Friends to Attend Wounded and Sick Sailors.

WASHINGTON, June 11.—A very substantial evidence of self-sacrifice for the sake of their country is afforded by the taking up of a military nurse's duties by the daughter of Secretary Long, Miss Margaret Long, with some of her chums at the Johns Hopkins Medical school of Baltimore. The young ladies who go with Miss Long are Dorothy Reid, Mabel Austin, daughter of ex-Governor Austin of Minnesota, and Mabel Simis. They have already reported to the naval hospital at Brooklyn to nurse the wounded and sick sailors who were sent up from Sampson's fleet on the Solace.

Fatal Fight With Trainrobbers.

DALLAS, June 11.—Reports were received by the Santa Fe officers in Dallas yesterday that four trainrobbers attempted to hold up an express train on the Lampas division Thursday night. A fight ensued between the trainmen and the bandits, in which one of the latter was shot and Fireman Johnson was killed. The Santa Fe officials declare the robbers got no money.

Reported Condition of Wheat.

WASHINGTON, June 11.—Winter wheat, 90.8 condition; spring wheat, acreage 43,000,000, 3,500,000 acres greater than last year; spring wheat, 100.9, as compared with 89.6 on June 1, 1887. This is made public in the agricultural department's report.

INVADING ARMY.

Care Being Taken to Move It With Little Risk.

16 WARSHIPS AS CONVOY.

The Naval Fleet Headed by the Battleship Indiana.

ABOUT 50 TRANSPORTS TO BE USED

The Ships Carrying the Soldiers and the War Vessels Expected to Make a Formidable Marine Procession—The Expedition Could Have Left Over a Week Ago, but the Rumor of Spanish Ships in the North Atlantic Caused Delay. Authorities Refused to State the Time of Leaving Port.

WASHINGTON, June 11.—Out of the maze of doubt and contradiction as to the dispatch of the first army of invasion to Cuba one thing stands out clearly, namely, that the government, feeling strong in its present position and plan, is moving cautiously and with the deliberation which it believes will secure success unattended with disasters. With this main purpose in view the army and navy are co-operating toward the dispatch of the troops, some 25,000 in number, under escort of a strong fleet of naval convoys made up of 16 warships, headed by the battleship Indiana. Unattended by this strong fleet the troops might have left yesterday a week ago, when one strong naval convoy was ready for this service. Since then, however, reports have come as to the presence of Spanish ships in the North Atlantic.

Realizing that nothing was to be gained by haste and that the war was progressing steadily towards success, it was determined not to take the one small chance of having our troop transports menaced by some scouting ship of the enemy. As a result the troop transports have not proceeded to Cuba. They are in readiness to go, but will not move until the naval convoy is ready to accompany them, assuring safe conduct from Florida to the point of destination.

The war department positively declines to say when the forces will move, and there is authority for the statement that any reports purporting to give the hour or day when this formidable flotilla of invasion will start is not only unwarranted, but meets with the most vigorous official condemnation. The administration feels that the time has come when it is of utmost importance that the precise movements of this invading fleet should not be published in this country and thus heralded to the enemy.

The completeness with which the transport of troops has been planned is shown in the official list of transport vessels given out at the war department yesterday. Of this list 34 large steamships, varying from 4,100 tons down to 600 tons, are at Florida ports ready to carry our troops to the point of invasion. There are some 15 other craft, including vessels suitable for conveying fresh water, stores, etc., and for lightening the troops and stores from the ships to the beach when the debarkation begins.

The entire transport fleet of about 50 steamships, augmented by the fleet of naval convoys, 16 in number, will make a formidable marine procession, exceeding in magnitude the notable spectacle of the naval review during the World's fair year.

NOT READY FOR PEACE.

Mr. Balfour's Reply as to Whether England Has Moved to Intervene in the War.

LONDON, June 11.—In the house of commons A. J. Balfour, first lord of the treasury and government leader, yesterday replying to a question as to whether, "in view of the condition of the population of Cuba and the sufferings and evils arising from the Spanish-American war, her majesty's government or any the European powers have any intention of intervening to secure a cessation of hostilities by inducing one or both belligerents to negotiate terms of peace," said:

"Her majesty's government will gladly take any favorable opportunity for promoting a cessation of hostilities and negotiations for peace, but any action on their part for this purpose can only be undertaken if there is reasonable prospect that it will be well received by both parties and of its being likely to lead to an agreement between them."

"Unfortunately there is not sufficient ground for believing this condition exists."

THE SPANIARDS MAY STAY.

It Would Require a Special Act to Expel Du Bosc and Carranza.

OTTAWA, Ont., June 11.—Statements sent out from Ottawa that the government had decided to deport Senor Du Bosc and Lieutenant Carranza, the al-

leged Spanish spies, lack foundation. It is conceded now in official circles after a careful examination of the law that the crown has not the power to expel them from the country.

The power is reserved to parliament, which brings it into play by a special act. If the two Spaniards have employed persons in Canada to act as spies in the United States they have violated the foreign enlistment act and are liable to prosecution under it. The government may intimate to them that if they remain they will be prosecuted. But the accused may elect if they so choose to remain and answer any charge brought against them in the courts.

Fed by Red Cross People.

SAN FRANCISCO, June 11.—The Fifty-first regiment of Iowa volunteers, numbering nearly 1,000 men, arrived here yesterday. The Red Cross society gave the new arrivals a hearty breakfast and fruit and flowers in abundance were distributed before the men started on the five mile march to Camp Merritt.

SPANISH WARSHIPS OFF ATLANTIC COAST.

Battleship, Two Cruisers and Torpedo-boat Reported to Have Been Sighted Off Fort Monroe.

NEWPORT NEWS, Va., June 11.—A dispatch received from Fort Monroe says:

"Intense excitement was caused at Fort Monroe last night shortly after 9 o'clock by a dispatch received from the signal station at Cape Henry, stating that Spanish warships were lurking in that vicinity."

"A short while later a message was received from Washington instructing the commandant of the fort to be on the alert."

"Reports as to the number of ships seen conflict. A lieutenant, who was seen after midnight, said he had been informed that a Spanish battleship, two cruisers and a torpedo-boat had been caught under the searchlight of Cape Henry steaming from a northerly direction."

"As soon as it was reported that the enemy's warships had been sighted there was great activity at the fort. The big searchlight began to sweep the bay and signals were flashed to the cruiser Minneapolis, auxiliary cruiser Dixie and dynamite cruiser Buffalo, which are anchored off Old Point. Quarters were sounded and the crews hastily prepared the ships for action."

"The gunners took positions at their posts, where they were ordered to remain during the night. The ship's searchlights were kept playing on the waters."

"In the fort ammunition was hurried to the big guns and the troops ordered to their posts. Some of the officers were with their families at the hotels and buglers were dispatched for them."

"The men scurried out of the hotels half dressed and hastened to the fort. In the camp of the Maryland troops' orders were given for the men to sleep in their clothes with their guns close by."

A dispatch that came from Washington stating that one of the vessels seen was probably a German freighter, had a tendency to allay the excitement among the guests at the hotels, but the officers did not relax their vigilance."

THREATEN SPANISH COAST.

This the Advice Given by an English Newspaper.

LONDON, June 11.—The St. James Gazette yesterday published a long editorial pointing out the hopelessness of any further Spanish resistance and suggests the Americans seek a settlement of the Cuban question in Spain. It says:

"There is no need of an invasion, but the mere presence of a strong armament which the Spanish navy could not drive off, on the coast, would produce a tremendous effect and there are numerous unfortified anchorages where the Americans could recoil with leisure."

"Of course there are powers in Europe who would witness the operation with great disgust, but if the Americans are going to be frightened by the vague abstraction called Europe they must be very timid. Let them consult the sultan and remember that England is their Russia for the time being."

SUNDAY SCHOOL ASSOCIATION.

The American New Church Organization Met in Cleveland.

CLEVELAND, June 11.—The American New Church Sunday School association met yesterday. The annual address was delivered by the president, Rev. William H. Alden of Philadelphia, his subject being "Relation of the Home to the Sunday School." Reports were received from the committees. Officers were elected as follows:

Rev. W. L. Gladish of Indianapolis, president; Rev. J. M. Smith of Rockbury, Mass., vice president; Rev. W. H. Mayhew, Yarmouth, Mass., secretary and treasurer.

MAY SAIL TODAY.

Troops Likely to Leave For the Philippines.

MR. MEIKLEJOHN SO SAID.

They May Be Followed by More Troops Next Week.

EXPECTED TO NUMBER 6,000.

With the Soldiers Will Be Taken a Large Quantity of Ammunition and Supplies—By the Fourth of July the Entire Expedition May Be Either Landed or in Readiness to Land Near Manila—The Monterey Put Into San Diego and Took on Coal—The Brutus Anchored Not Far Away.

WASHINGTON, June 11.—Assistant Secretary of War Meiklejohn said last night that it was probable the first part of the next expedition to the Philippines would leave San Francisco for Manila today. The transports which will convey the troops to Manila are Ohio, Indiana, Colon, Morgan City, China and Para. The expedition will consist of about 6,000 men, and with it will be taken a large quantity of ammunition and supplies.

The first part of the expedition, which is expected to leave today, will be followed early next week by the remainder, so that by the 4th of July the entire expedition may be either landed or in readiness to land near Manila.

THE MONTEREY AND BRUTUS.

The Former Came In For Coal and Water at San Diego.

SAN DIEGO, Cal., June 11.—The U. S. S. Monterey and her coal consort, the Brutus, supposed to be speeding on their way toward Honolulu and Manila, were sighted at noon yesterday steaming south toward San Diego at a good rate of speed, the Monterey leading. They arrived off the harbor mouth and separated, the Brutus going about five miles south and anchoring near Coronado island, while the Monterey came in rapidly and dropped her anchor off the coal bunkers, and a great crowd being on the wharf to receive them. Paymaster Rogers stated briefly that they had simply come in here for coal and water and would sail this afternoon at high tide for Honolulu.

Officers stated that they met heavy weather the second day out and lost overboard 83 tons, which was secured in the netting on the Monterey's decks.

AGREED TO VOTE.

Hawaiian Annexation to Be Considered and Acted Upon in the House.

WASHINGTON, June 11.—The feature of the session of the house yesterday was the securing of an agreement to consider and vote upon the Newlands resolution to annex Hawaii. Beginning today, the debate will proceed until 5 o'clock next Wednesday afternoon, when a vote will be taken. The annexationists came yesterday determined to force consideration and for three hours the opposition filibustered.

Consideration of the resolutions yesterday could have been prevented, as under the rules a recess until the evening pension session necessarily would have been taken at 5 o'clock, but it was plain that the annexationists would win their victory today. Realizing this, and knowing the resolutions would pass and go to the country involving an issue, the opposition treated for liberal debate, and their demands were granted readily. Eight Democrats voted with the annexationists in the movement yesterday to force consideration of the resolutions, they being Messrs. Berry (Ky.), Deveys (Cal.), Livingston (Ga.), Brucker (Mich.), Cummings, Sulzer and Vohlsage (N. Y.) and Cochran (Mo.).

It is claimed at least 20 Democrats will favor the passage of the resolutions.

The bill to enable volunteer soldiers to vote at congressional elections was passed, and a number of minor measures, chiefly of a private nature, were considered.

DYNAMITE WAS EXPLODED.

Two Men Killed Testing Appliances to Explode Government Mines.

JACKSONVILLE, Fla., June 11.—An explosion of dynamite occurred at St. John's bluff, near the mouth of St. John river yesterday, killing two men, John J. O'Rourke and Edward Houston, and seriously injuring Lieutenant Hart, U. S. A.

O'Rourke was foreman of the Western Union Telegraph company in this city and Houston was in the employ of the government. The two men were in a small building on the bluff testing some electrical appliances to be used for exploding the mines in the river. In some manner the wires became crossed and the dynamite was exploded.

"As soon as it was reported that the enemy's warships had been sighted there was great activity at the fort. The big searchlight began to sweep the bay and signals were flashed to the cruiser Minneapolis, auxiliary cruiser Dixie and dynamite cruiser Buffalo, which are anchored off Old Point. Quarters were sounded and the crews hastily prepared the ships for action."

"The gunners took positions at their posts, where they were ordered to remain during the night. The ship's searchlights were kept playing on the waters."

"In the fort ammunition was hurried to the big guns and the troops ordered to their posts. Some of the officers were with their families at the hotels and buglers were dispatched for them."

"The men scurried out of the hotels half dressed and hastened to the fort. In the camp of the Maryland troops' orders were given for the men to sleep in their clothes with their guns close by."

A dispatch that came from Washington stating that one of the vessels seen was probably a German freighter, had a tendency to allay the excitement among the guests at the hotels, but the officers did not relax their vigilance.

THREATEN SPANISH COAST.

This the Advice Given by an English Newspaper.

LONDON, June 11.—The St. James Gazette yesterday published a long editorial pointing out the hopelessness of any further Spanish resistance and suggests the Americans seek a settlement of the Cuban question in Spain. It says:

"There is no need of an invasion, but the mere presence of a strong armament which the Spanish navy could not drive off, on the coast, would produce a tremendous effect and there are numerous unfortified anchorages where the Americans could recoil with leisure."

"Of course there are powers in Europe who would witness the operation with great disgust, but if the Americans are going to be frightened by the vague abstraction called Europe they must be very timid. Let them consult the sultan and remember that England is their Russia for the time being."

SUNDAY SCHOOL ASSOCIATION.

The American New Church Organization Met in Cleveland.

CLEVELAND, June 11.—The American New Church Sunday School association met yesterday. The annual address was delivered by the president, Rev. William H. Alden of Philadelphia, his subject being "Relation of the Home to the Sunday School." Reports were received from the committees. Officers were elected as follows:

Rev. W. L. Gladish of Indianapolis, president; Rev. J. M. Smith of Rockbury, Mass., vice president; Rev. W. H. Mayhew, Yarmouth, Mass., secretary and treasurer.

MAY SAIL TODAY.

Troops Likely to Leave For the Philippines.

MR. MEIKLEJOHN SO SAID.

They May Be Followed by More Troops Next Week.

EXPECTED TO NUMBER 6,000.

With the Soldiers Will Be Taken a Large Quantity of Ammunition and Supplies—By the Fourth of July the Entire Expedition May Be Either Landed or in Readiness to Land Near Manila—The Monterey Put Into San Diego and Took on Coal—The Brutus Anchored Not Far Away.

WASHINGTON, June 11.—Assistant Secretary of War Meiklejohn said last night that it was probable the first part of the next expedition to the Philippines would leave San Francisco for Manila today. The transports which will convey the troops to Manila are Ohio, Indiana, Colon, Morgan City, China and Para. The expedition will consist of about 6,000 men, and with it will be taken a large quantity of ammunition and supplies.

The first part of the expedition, which is expected to leave today, will be followed early next week by the remainder, so that by the 4th of July the entire expedition may be either landed or in readiness to land near Manila.

THE MONTEREY AND BRUTUS.

The Former Came In For Coal and Water at San Diego.

SAN DIEGO, Cal., June 11.—The U. S. S. Monterey and her coal consort, the Brutus, supposed to be speeding on their way toward Honolulu and Manila, were sighted at noon yesterday steaming south toward San Diego at a good rate of speed, the Monterey leading. They arrived off the harbor mouth and separated, the Brutus going about five miles south and anchoring near Coronado island, while the Monterey came in rapidly and dropped her anchor off the coal bunkers, and a great crowd being on the wharf to receive them. Paymaster Rogers stated briefly that they had simply come in here for coal and water and would sail this afternoon at high tide for Honolulu.

Officers stated that they met heavy weather the second day out and lost overboard 83 tons, which was secured in the netting on the Monterey's decks.

AGREED TO VOTE.

Hawaiian Annexation to Be Considered and Acted Upon in the House.

WASHINGTON, June 11.—The feature of the session of the house yesterday was the securing of an agreement to consider and vote upon the Newlands resolution to annex Hawaii. Beginning today, the debate will proceed until 5 o'clock next Wednesday afternoon, when a vote will be taken. The annexationists came yesterday determined to force consideration and for three hours the opposition filibustered.

Consideration of the resolutions yesterday could have been prevented, as under the rules a recess until the evening pension session necessarily would have been taken at 5 o'clock, but it was plain that the annexationists would win their victory today. Realizing this, and knowing the resolutions would pass and go to the country involving an issue, the opposition treated for liberal debate, and their demands were granted readily. Eight Democrats voted with the annexationists in the movement yesterday to force consideration of the resolutions, they being Messrs. Berry (Ky.), Devereux (Cal.), Livingston (Ga.), Brucker (Mich.), Cummings, Sulzer and Vohlsig (N. Y.) and Cochran (Mo.).

It is claimed at least 20 Democrats will favor the passage of the resolutions.

The bill to enable volunteer soldiers to vote at congressional elections was passed, and a number of minor measures, chiefly of a private nature, were considered.

DYNAMITE WAS EXPLODED.

Two Men Killed Testing Appliances to Explode Government Mines.

JACKSONVILLE, Fla., June 11.—An explosion of dynamite occurred at St. John's bluff, near the mouth of St. John river yesterday, killing two men, John J. O'Rourke and Edward Houston, and seriously injuring Lieutenant Hart, U. S. A.

O'Rourke was foreman of the Western Union Telegraph company in this city and Houston was in the employ of the government. The two men were in a small building on the bluff testing some electrical appliances to be used for exploding the mines in the river. In some manner the wires became crossed and the dynamite was exploded.

IT IS HARD ON MERCER

But Some Washington Players Are Angry

AND REFUSE TO SUPPORT HIM

Toadix Carey is Doing Well at Minneapolis, and His Record For the Week is Very Good—Padden Has Not Settled—Some Good Sporting News.

George Carey is playing a good ball game with the Minneapolis team, and is getting his eye on the ball.

He participated in five games this week, and out of 22 times at the bat made 8 hits, giving him a batting average of .360. His fielding record is not so good as usual, but he had 50 put-outs, two assists and three errors. In addition he had one stolen base, one sacrifice hit, and participated in three double plays.

The Washington correspondent of Sporting Life this week intimates that the Washington team is not in sympathy with Mercer and whenever he is in the box they play as though they don't care whether they win or not. He says:

"Mercer—O, Winnie, what has happened to you? We are at a loss to know why the dark eyed lad with curly locks, has lost his effectiveness. We hope no one has said cross things to Winnie. Surely Mercer is one of the very best twirlers in the league, but when some in the team refuse to support him for reasons trifling it is about time to call a halt, and give these knuckers to understand that personal feelings should play no part in a ball game, least wise it should be so with gentlemen."

Bobby Cargo is playing a good game at short with the Canandaigua club.

The local team has no game booked for today, and a number of the team will go to Lisbon.

A letter was received in this city yesterday from the captain of the Wheeling bowling team. He wants to arrange a series of three games with a team from this city for a stake anywhere from \$100 to \$500 a side. There is no bowling team in the city, and the offer will not be accepted.

Padden has not yet settled his differences with Manager Watkins, but it is expected he will do so in a few days. A morning exchange says that the threat he would be sold to St. Louis should bring him to his senses, as St. Louis is the Morro Castle of the league.

GALLANT PRINCE ALBERT.

How a Pretty Girl Received a Ring From the Royal Traveler.

The news is getting out that Albert, Prince of Flanders, heir to the Belgian throne, made himself very agreeable to his fellow passengers on the Kaiser Wilhelm der Grosse. Being a gallant young man, he was attentive to the women. Fourth Officer Veich of the great steamship tells some good stories about his highness.

"The prince is a most agreeable companion on a voyage," said Officer Veich. "Several very pretty girls were in the first cabin, and the prince was very devoted to them. One, whom we will call Miss Blank, is the daughter of a Wisconsin physician. The prince was introduced to her, and they became very good friends. Miss Blank recently appeared wearing a superb ring set with emeralds and sapphires. She seemed very proud of it and said frankly and innocently that the prince had given it to her. All of the women wanted to look at the ring, and some made ill natured remarks. I overheard one older woman of Miss Blank's party say to her: 'Don't you think you were—well, indiscreet to take such a costly ring, even from a prince? And then to think you were so foolish as to let everybody see it.'"

"Miss Blank laughed, teased her friend awhile, and then said: 'I shall keep the ring as a souvenir of a pleasant companion during the voyage, and not because of its value. The prince and I were talking of jewels and how they are imitated nowadays. He showed me a beautiful ring he wore, and then took from his pocket this one, exactly like it. "Choose the true gem and you can have it," he said, laughing at me. He shook the rings together between his palms. I chose this one. It's paste and worth about \$1 or so, and so I think I am free to keep it.'"

MRS. M'KINLEY AT EUCHRE.

Her Fondness For the Game at Which She Continues to Be Invincible.

The president's solicitude for the comfort and pleasure of Mrs. McKinley is known to every friend and acquaintance in the White House circle. Not only does the president look after his wife and her comfort first at all public gatherings, but he carries out this inflexible rule at private parties, especially where card playing is indulged in. It is a source of great pleasure for Mrs. McKinley to be able to participate in gatherings where euchre is a feature, and it invariably happens that she comes out winner. It is a habit of the president to be opposed to his wife in this game, and he adopts a clever trick by which she can always tell what he is holding in cards. Apparently in the most unintentional manner he will drop his cards face up or otherwise expose his hand accidentally, and Mrs. McKinley is quick to take advantage of his exposure.

Euchre parties at the White House are of nightly occurrence except on the occasion of a state dinner or public reception, and these gatherings are the source of great amusement not only to the president and his wife, but to those who are invited to the White House to participate in them. It has become proverbial how lucky Mrs. McKinley is at euchre, and she is always in demand as a partner when a game is being made up. These euchre parties are not continued beyond 10 o'clock, and the finish is always a source of unbounded merriment on the part of the president and his guests. His parting greeting on such occasions is to come over some other evening and try to overcome the luck, coupled with good playing, shown by Mrs. McKinley. Meanwhile the mistress of the White House continues to be invincible at euchre.—Chicago Tribune.

MR. MASON'S CHAMPION.

Fugitive McCarthy of Chicago Ready to Fight the Spanish Editor.

Senator Mason received a telegram the other day from Billy McCarthy of Chicago, who said that he was a prize-fighter in good condition. He had been unsuccessful in arranging a "mill" with any of the "sluggers" around Chicago, and so he volunteered his services to take care of the bellicose Spanish editor who has challenged Mr. Mason. The latter is still considering the proposition. The friends of the senator think that the Spaniard has the advantage of the affair all the way through, inasmuch as the senator has already notified him that if they meet in mortal combat the weapons used must be ten inch disappearing guns and that the senator's person will form a much broader target than that of his adversary.

Mr. Mason told all the correspondents who asked about the duel that he did not intend to notice it, as the Spaniard was "too small potatoes to pay any attention to." Nevertheless all day he was besieged with suggestions as to the weapons he should name and the place of meeting. One of the suggestions was that a price of admission be charged to the duel for the benefit of the Maine sufferers.—Chicago Record.

WON BY MANY WOMEN

CHRISTIAN SCIENCE VICTORY IN NEW YORK STATE.

They Besieged a Senate Committee—Senator Coggeshall Persuaded to Amend His Bill Prohibiting All but Licensed Physicians From Practicing the Healing Art.

Senator Henry J. Coggeshall of Oneida county, N. Y., was the center of one of the most remarkable demonstrations recently that ever took place in the senate chamber at Albany. The other participants were fully 500 women, and the occasion was a hearing before the committee on public health on a bill introduced by Senator Coggeshall prohibiting any one not regularly licensed as a physician from practicing the healing art. The women who crowded into the senate chamber and choked up the entrances were either Christian Science healers themselves or were prepared to testify to miraculous cures effected by them. It was remarked by all observers that they were the handsomest, best dressed and healthiest looking lot of women that have been seen in Albany for many a day.

Speeches in opposition to the bill and extolling the virtues of Christian Science were made by Judge P. C. Tallmann of Brooklyn, Henry L. Call of New York, Dr. G. D. Cochran, Mark S. L. Hubbell and Henry W. Botts of Buffalo and Miss Laura Lathrop. Ex-Senator McMillan of Buffalo sent a letter saying that his wife had been an invalid for 20 years and was cured by Christian Science and was now able to run up and down stairs much faster than he could. Judge Hatch of Brooklyn sent similar testimony. One of the speakers requested that all those present who had been cured or benefited by Christian Science should rise or hold up their hands. Nearly every woman in the room got up. Some of them climbed on the senators' chairs and waved their handkerchiefs.

This demonstration over, Senator Coggeshall took the floor and made one of the peculiarly amiable and graceful speeches for which he is famed. He said that he was not a crusader against Christian Science. Science of all kinds had always appealed to him, and he well remembered the days when he had listened to the teachings of Christianity at his mother's knee. He considered that the committee was under great obligations to him for bringing together in the senate chamber so fine a looking lot of women. Barring his wife, he said, they were the best looking representatives of the sex that he had ever seen. He wound up by saying that he had intended that his bill should apply only to those persons who practiced what they called massage. It would be entirely agreeable to him to have the bill so amended as to exempt specifically from its provisions the practitioners of Christian Science healing. Turning to Dr. Brush, the chairman of the committee, he inquired whether such an amendment would meet with the committee's approval.

The great crowd of women leaned forward in their seats and listened intently for Dr. Brush's reply. After conferring with the other members of the committee Dr. Brush said that there was no objection to the amendment. Then the pent up enthusiasm broke forth. Once more the women stood up in the chairs, waved their handkerchiefs and cheered and cheered. Their cheers could be heard all over the floor of the capitol building on which the senate chamber is located. Then a few of the women nearest to Senator Coggeshall rushed up to him, beaming with gratitude, and shook his hand. This was the signal for a general movement, and in a twinkling Senator Coggeshall was the center of an animated garden of much beflowered hats. He was pushed and hauled hither and thither, and all of the women tried to shake hands with him at once. It was nearly an hour before the demonstration was over and Senator Coggeshall was permitted to escape. Then the women stood around in little knots and praised his courtesy and kindness. One of them said to four or five enthusiastic friends:

"Senator Coggeshall will never know how much we think of him until we have made him the next candidate for governor of New York."—New York Sun.

Women's Tailor Made Dresses.

Tailor made clothes for women will be more plentiful than ever this year, and, what will be of even greater interest to the average wearer, will be more inexpensive than ever before. I recently saw a stunning gown—built by a real Frenchman, who furnished all the material—that cost only \$45. The same thing constructed on Broadway or Sixth avenue in New York would cost at least twice as much. Ladies' tailors are multiplying, and the competition enables the frugal woman to drive good bargains.—Madden in Pittsburg Dispatch.

Where the Pecan Grows.

The pecan is a near relative of the hickory nut. It does not thrive in all lands that the hickory nut will, but the hickory nut will grow well wherever the pecan will. The home of the pecan

is the low, rich bottom land that lies along the Wabash, Mississippi, White and Big Bend rivers, while they seem to grow equally as well in the Indian Territory and in the best watered parts of Texas.—Little Rock Democrat.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning June 12. Comment by Rev. S. H. Doyle.

TOPIC.—Christian courage; examples from books or life.—Mark x, 32-34; Acts xxi, 10-14.

Christian history is replete with illustrations of courage of the highest character. There have been times in the history of the world when it required the greatest physical and moral courage to confess Christ and to stand firmly by Christian faith and duty. In many places in the world today similar courage is demanded. These demands for Christian courage have been faithfully met, both in the past and in the present. For their faith in Christ men have been willing to hazard their lives and not a few have willingly stood the supreme test itself and have sacrificed their lives for the sake of their religious convictions. If we were to call the roll of earth's honored dead, we would find upon it the names of an innumerable multitude, who died as martyrs to their Christian faith, and of a countless host of others who, although not called upon to suffer martyrdom, yet displayed matchless courage and heroism in the defense of their faith. All honor to Christianity's courageous dead, and may their spirit fall upon the disciples of Christ today and their example inspire us to noble, heroic and self sacrificing deeds for Christ and humanity!

Christ Himself heads the long list of courageous Christians, if we may so speak of Him. He Himself has left us a matchless example of the courage that should possess all Christians in battling against wrong and injustice and in performing the duties of life. Long before His death He knew that He must die as a martyr, and yet unflinchingly and steadfastly He turned His face toward Jerusalem to meet the crisis of His life, and when it came, with a calm courage and fortitude that impressed itself upon all who saw Him die, He gave His life for the world. It has been well said, "Socrates died like a philosopher, but Christ like a god." Only divinity itself could explain His calm courage, His sublime trust in God, Himself and the issues of His life and death.

Paul the apostle certainly ranks next to Christ in the category of brave and heroic Christians. Luke gives us in the topical reference an illustration of Paul's courage. Paul is at Caesarea on his way to Jerusalem after his last great missionary journey. A certain prophet named Agabus came down from Jerusalem, "took Paul's girdle and bound his own hands and feet and said, "Thus sayeth the Holy Ghost, so shall the Jews at Jerusalem bind the man who owneth this girdle and shall deliver him into the hands of the gentiles." Then all tried to persuade Paul not to go to Jerusalem, but he bravely replied, "What mean ye to weep and to break my heart, for I am ready not to be bound only, but to die at Jerusalem for the name of the Lord Jesus?" Nor was this magnificent language a mere idle boast. Paul meant it, and he proved it by his subsequent history. Let us receive an inspiration from the examples of Christ, Paul and all heroic Christians.

Bible Readings.—Num. xiii, 20; Deut. xxxi, 6; Joshua i, 6, 7; Judg. iv, 14-16; vii, 15-23; II Sam. x, 9-13; II Chron. xix, 8-11; Ez. x, 1-4; Ps. xxvii, 14; xxxi, 24; Isa. xli, 6, 7; Dan. vi, 10-23; I Cor. xvi, 13; Eph. vi, 10-18.

The Sense of Sin.

The missionary among people whom we complacently call "heathen" is often asked if he finds them ready to confess that they are sinners. He must answer yes or no according to the point of view and according to the meaning intended by the questioner. Unconverted people at home and abroad are essentially alike in this matter. They will tell you that they do not claim to be better than their neighbors and that they are well aware of coming far short of perfection, though they will doubtless also resent any suggestion as to particular instances that they are not quite as good as anybody whom you chance to know and that they are not really examples to many who make louder pretensions.—Commonwealth (Baptist).

A Leader and Commander.

There is deep significance in the prophecy that the Messiah should be given as "a leader and commander to the people." There must always be a head. Every flock must have its shepherd; every tribe must have its chief; every nation must have its leader. To be adequately led, to be wisely commanded, is one of the deepest needs of the human race. Instinctively the people seek for a leader; especially at the time of any perilous crisis, the cry of their hearts is, Who shall lead and guide us?—Reformed Church Messenger.

Truth Is Truth.

There are times in the history of every individual, as well as every church, where things look blue. When there is a going back on the truth once attained, and when the ordinances of worship are corrupted, and when men who once spoke out against the inroads of corruption become silent as the grave, it looks blue for the rest of the faithful ones. But no matter who comes or who goes, truth is truth and God is true to

Mrs. Edward Orr, of 220 Thompson street, says: "My sister, Mrs. Borland, of Pittsburg, while visiting me, recommended Doan's Kidney Pills so highly that I was induced to try them. I had a severe attack of kidney disease; sometimes I was so bad I could not get up. Many times my neighbors came in and found me lying on the lounge suffering when I intended to do a big day's work. I was so miserable I could do nothing. After my sister told me of the pills, I made up my mind to take them and got a box at W. & W. Pharmacy. They did just what they claimed they would do—cured me sound and well in a few days. My little girl was feeling poorly, and had a sallow complexion for some time. I gave her a few doses, and after the treatment she looked splendidly."

The Purpose of Life.

Do the tears that arise in the heat of the strife
Seem to hide from your vision the purpose of life?

Do the myriad cares of laborious days
Leave a doubt in your heart whether living
them pays?

Banish doubt and plead on. Life was given to man

As a part of creation's mysterious plan.
Each must carry what burden the years may bestow

Until burdens and bearers alike are laid low.

At the end of the road is a couch and a pall,
And it may be the couch is the end of it all,
Or it may be the spirit, released from the clod,
Shares the freedom of time with the infinite God.

'Tis but folly to dig into moss covered creeds.
Let your life be a record of generous deeds.
Not the wisest may fathom futurity's plan,
But the wisest may live as becometh a man.
—Frank Putnam in London Public Opinion.

The Canyon of the Yellowstone.

The canyon is so tremendously wild and impressive that even the great falls cannot hold your attention, says John Muir in The Atlantic. It is about 20 miles long and 1,000 feet deep—a weird, unearthly looking gorge of jagged, fantastic architecture and most brilliantly colored. It is not the depth or shape of the canyon, nor the waterfalls, nor the green and gray river chanting its brave song as it goes foaming on its way, that most impresses the observer, but the colors of the decomposed volcanic rocks. With few exceptions the traveler in strange lands finds that however much the scenery and vegetation in different countries may change Mother Earth is ever familiar and the same. But here the very ground is changed, as if belonging to some other world. The walls of the canyon from top to bottom burn in a perfect glory of color, confounding and dazzling when the sun is shining—white, yellow, green, blue, vermilion and various other shades of red indefinitely blending. All the earth hereabouts seems to be paint. Millions of tons of it lie in sight, exposed to wind and weather as if of no account, yet marvelously fresh and bright, fast colors not to be washed out or bleached out by either sunshine or storms.

Electric Propulsion of Ships.

Up to the present electricity has scarcely been thought suitable as the principal motive or propelling power for the larger type of vessels. This is undoubtedly owing to the fact that for a given horsepower a triple or quadruple expansion steam engine would take up less space and probably weigh less than an electrical installation of equal power. Storage batteries are out of the question for such uses, although persons not well up in electrical subjects frequently wonder why our ocean greyhounds are not propelled by some such method. It may interest some of our readers to know that a vessel requiring an average of 10,000 horsepower to propel it across the Atlantic, and displacing 5,000 tons,

would be obliged to carry, in storage batteries alone made use of, 324,480,000 pounds of such batteries, or, in other words, the motive power alone would weigh 162,240 tons, or 30 times as much as the ship.—Electricity.

"Miss Blank laughed, teased her friend awhile, and then said: 'I shall keep the ring as a souvenir of a pleasant companion during the voyage, and not because of its value. The prince and I were talking of jewels and how they are imitated nowadays. He showed me a beautiful ring he wore, and then took from his pocket this one, exactly like it. "Choose the true gem and you can have it," he said, laughing at me. He shook the rings together between his palms. I chose this one. It's paste and worth about \$1 or so, and so I think I am free to keep it.'"—San Francisco Examiner.

MRS. M'KINLEY AT EUCHRE.

Her Fondness For the Game at Which She Continues to Be Invincible.

The president's solicitude for the comfort and pleasure of Mrs. McKinley is known to every friend and acquaintance in the White House circle. Not only does the president look after his wife and her comfort first at all public gatherings, but he carries out this inflexible rule at private parties, especially where card playing is indulged in. It is a source of great pleasure for Mrs. McKinley to be able to participate in gatherings where euchre is a feature, and it invariably happens that she comes out winner. It is a habit of the president to be opposed to his wife in this game, and he adopts a clever trick by which she can always tell what he is holding in cards. Apparently in the most unintentional manner he will drop his cards face up or otherwise expose his hand accidentally, and Mrs. McKinley is quick to take advantage of his exposure.

Euchre parties at the White House are of nightly occurrence except on the occasion of a state dinner or public reception, and these gatherings are the source of great amusement not only to the president and his wife, but to those who are invited to the White House to participate in them. It has become proverbial how lucky Mrs. McKinley is at euchre, and she is always in demand as a partner when a game is being made up. These euchre parties are not continued beyond 10 o'clock, and the finish is always a source of unbounded merriment on the part of the president and his guests. His parting greeting on such occasions is to come over some other evening and try to overcome the luck, coupled with good playing, shown by Mrs. McKinley. Meanwhile the mistress of the White House continues to be invincible at euchre.—Chicago Tribune.

MR. MASON'S CHAMPION.

Fugitive McCarthy of Chicago Ready to Fight the Spanish Editor.

Senator Mason received a telegram the other day from Billy McCarthy of Chicago, who said that he was a prize-fighter in good condition. He had been unsuccessful in arranging a "mill" with any of the "sluggers" around Chicago, and so he volunteered his services to take care of the bellicose Spanish editor who has challenged Mr. Mason. The latter is still considering the proposition. The friends of the senator think that the Spaniard has the advantage of the affair all the way through, inasmuch as the senator has already notified him that if they meet in mortal combat the weapons used must be ten inch disappearing guns and that the senator's person will form a much broader target than that of his adversary.

Mr. Mason told all the correspondents who asked about the duel that he did not intend to notice it, as the Spaniard was "too small potatoes to pay any attention to." Nevertheless all day he was besieged with suggestions as to the weapons he should name and the place of meeting. One of the suggestions was that a price of admission be charged to the duel for the benefit of the Maine sufferers.—Chicago Record.

A Great Year For Powder.

Another uprising of the Kurds in Asia has recently been reported, from which it would seem that everything is playing into the hands of the powder makers this year.—St. Louis Globe-Democrat.

WON BY MANY WOMEN

CHRISTIAN SCIENCE VICTORY IN NEW YORK STATE.

They Besieged a Senate Committee—Senator Coggeshall Persuaded to Amend His Bill Prohibiting All but Licensed Physicians From Practicing the Healing Art.

Senator Henry J. Coggeshall of Oneida county, N. Y., was the center of one of the most remarkable demonstrations recently that ever took place in the senate chamber at Albany. The other participants were fully 500 women, and the occasion was a hearing before the committee on public health on a bill introduced by Senator Coggeshall prohibiting any one not regularly licensed as a physician from practicing the healing art. The women who crowded into the senate chamber and choked up the entrances were either Christian Science healers themselves or were prepared to testify to miraculous cures effected by them. It was remarked by all observers that they were the handsomest, best dressed and healthiest looking lot of women that have been seen in Albany for many a day.

Speeches in opposition to the bill and extolling the virtues of Christian Science were made by Judge P. C. Tallmann of Brooklyn, Henry L. Call of New York, Dr. G. D. Cochran, Mark S. L. Hubbell and Henry W. Botts of Buffalo and Miss Laura Lathrop. Ex-Senator McMillan of Buffalo sent a letter saying that his wife had been an invalid for 20 years and was cured by Christian Science and was now able to run up and down stairs much faster than he could. Judge Hatch of Brooklyn sent similar testimony. One of the speakers requested that all those present who had been cured or benefited by Christian Science should rise or hold up their hands. Nearly every woman in the room got up. Some of them climbed on the senators' chairs and waved their handkerchiefs.

This demonstration over, Senator Coggeshall took the floor and made one of the peculiarly amiable and graceful speeches for which he is famed. He said that he was not a crusader against Christian Science. Science of all kinds had always appealed to him, and he well remembered the days when he had listened to the teachings of Christianity at his mother's knee. He considered that the committee was under great obligations to him for bringing together in the senate chamber so fine a looking lot of women. Barring his wife, he said, they were the best looking representatives of the sex that he had ever seen. He wound up by saying that he had intended that his bill should apply only to those persons who practiced what they called massage. It would be entirely agreeable to him to have the bill so amended as to exempt specifically from its provisions the practitioners of Christian Science healing. Turning to Dr. Brush, the chairman of the committee, he inquired whether such an amendment would meet with the committee's approval.

The great crowd of women leaned forward in their seats and listened intently for Dr. Brush's reply. After conferring with the other members of the committee Dr. Brush said that there was no objection to the amendment. Then the pent up enthusiasm broke forth. Once more the women stood up in the chairs, waved their handkerchiefs and cheered and cheered. Their cheers could be heard all over the floor of the capitol building on which the senate chamber is located. Then a few of the women nearest to Senator Coggeshall rushed up to him, beaming with gratitude, and shook his hand. This was the signal for a general movement, and in a twinkling Senator Coggeshall was the center of an animated garden of much beflowered hats. He was pushed and hauled hither and thither, and all of the women tried to shake hands with him at once. It was nearly an hour before the demonstration was over and Senator Coggeshall was permitted to escape. Then the women stood around in little knots and praised his courtesy and kindness. One of them said to four or five enthusiastic friends:

"Senator Coggeshall will never know how much we think of him until we have made him the next candidate for governor of New York."—New York Sun.

Women's Tailor Made Dresses.

Tailor made clothes for women will be more plentiful than ever this year, and, what will be of even greater interest to the average wearer, will be more inexpensive than ever before. I recently saw a stunning gown—built by a real Frenchman, who furnished all the material—that cost only \$45. The same thing constructed on Broadway or Sixth avenue in New York would cost at least twice as much. Ladies' tailors are multiplying, and the competition enables the frugal woman to drive good bargains.—Madden in Pittsburgh Dispatch.

Where the Pecan Grows.

The pecan is a near relative of the hickory nut. It does not thrive in all lands that the hickory nut will, but the hickory nut will grow well wherever the pecan will. The home of the pecan

is the low, rich bottom land that lies along the Wabash, Mississippi, White and Big Bend rivers, while they seem to grow equally as well in the Indian Territory and in the best watered parts of Texas.—Little Rock Democrat.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning June 12. Comment by Rev. S. H. Doyle.

TOPIC.—Christian courage; examples from books or life.—Mark x, 32-34; Acts xxi, 10-14.

Christian history is replete with illustrations of courage of the highest character. There have been times in the history of the world when it required the greatest physical and moral courage to confess Christ and to stand firmly by Christian faith and duty. In many places in the world today similar courage is demanded. These demands for Christian courage have been faithfully met, both in the past and in the present. For their faith in Christ men have been willing to hazard their lives and not a few have willingly stood the supreme test itself and have sacrificed their lives for the sake of their religious convictions. If we were to call the roll of earth's honored dead, we would find upon it the names of an innumerable multitude, who died as martyrs to their Christian faith, and of a countless host of others who, although not called upon to suffer martyrdom, yet displayed matchless courage and heroism in the defense of their faith. All honor to Christianity's courageous dead, and may their spirit fall upon the disciples of Christ today and their example inspire us to noble, heroic and self sacrificing deeds for Christ and humanity!

Christ Himself heads the long list of courageous Christians, if we may so speak of Him. He Himself has left us a matchless example of the courage that should possess all Christians in battling against wrong and injustice and in performing the duties of life. Long before His death He knew that He must die as a martyr, and yet unflinchingly and steadfastly He turned His face toward Jerusalem to meet the crisis of His life, and when it came, with a calm courage and fortitude that impressed itself upon all who saw Him die, He gave His life for the world. It has been well said, "Socrates died like a philosopher, but Christ like a god." Only divinity itself could explain His calm courage, His sublime trust in God, Himself and the issues of His life and death.

Paul the apostle certainly ranks next to Christ in the category of brave and heroic Christians. Luke gives us in the topical reference an illustration of Paul's courage. Paul is at Caesarea on his way to Jerusalem after his last great missionary journey. A certain prophet named Agabus came down from Jerusalem, "took Paul's girdle and bound his own hands and feet and said, "Thus sayeth the Holy Ghost, so shall the Jews at Jerusalem bind the man who owneth this girdle and shall deliver him into the hands of the gentiles." Then all tried to persuade Paul not to go to Jerusalem, but he bravely replied, "What mean ye to weep and to break my heart, for I am ready not to be bound only, but to die at Jerusalem for the name of the Lord Jesus?" Nor was this magnificent language a mere idle boast. Paul meant it, and he proved it by his subsequent history. Let us receive an inspiration from the examples of Christ, Paul and all heroic Christians.

Bible Readings.—Num. xiii, 20; Deut. xxxi, 6; Joshua i, 6, 7; Judg. iv, 14-16; vii, 15-23; II Sam. x, 9-13; II Chron. xix, 8-11; Ez. x, 1-4; Ps. xxvii, 14; xxxi, 24; Isa. xli, 6, 7; Dan. vi, 10-23; I Cor. xvi, 13; Eph. vi, 10-18.

The Sense of Sin.

The missionary among people whom we complacently call "heathen" is often asked if he finds them ready to confess that they are sinners. He must answer yes or no according to the point of view and according to the meaning intended by the questioner. Unconverted people at home and abroad are essentially alike in this matter. They will tell you that they do not claim to be better than their neighbors and that they are well aware of coming far short of perfection, though they will doubtless also resent any suggestion as to particular instances that they are not quite as good as anybody whom you chance to know and that they are not really examples to many who make louder pretensions.—Commonwealth (Baptist).

A Leader and Commander.

There is deep significance in the prophecy that the Messiah should be given as "a leader and commander to the people." There must always be a head. Every flock must have its shepherd; every tribe must have its chief; every nation must have its leader. To be adequately led, to be wisely commanded, is one of the deepest needs of the human race. Instinctively the people seek for a leader; especially at the time of any perilous crisis, the cry of their hearts is, Who shall lead and guide us?—Reformed Church Messenger.

Truth Is Truth.

There are times in the history of every individual, as well as every church, where things look blue. When there is a going back on the truth once attained, and when the ordinances of worship are corrupted, and when men who once spoke out against the inroads of corruption become silent as the grave, it looks blue for the rest of the faithful ones. But no matter who comes or who goes, truth is truth and God is true to it.

Learning to distinguish between claims and proof.

Home proof is the best proof. Doan's Kidney Pills are endorsed by East Liverpool people.

Read what a citizen says:

Mrs. Edward Orr, of 220 Thompson street, says: "My sister, Mrs. Borland, of Pittsburg, while visiting me, recommended Doan's Kidney Pills so highly that I was induced to try them. I had a severe attack of kidney disease; sometimes I was so bad I could not get up. Many times my neighbors came in and found me lying on the lounge suffering when I intended to do a big day's work. I was so miserable I could do nothing. After my sister told me of the pills, I made up my mind to take them and got a box at W. & W. Pharmacy. They did just what they claimed they would do—cured me sound and well in a few days. My little girl was feeling poorly, and had a sallow complexion for some time. I gave her a few doses, and after the treatment she looked splendidly."

The Purpose of Life.

Do the tears that arise in the heat of the strife seem to hide from your vision the purpose of life?

Do the myriad cares of laborious days leave a doubt in your heart whether living them pays?

Banish doubt and plead on. Life was given to man.

As a part of creation's mysterious plan. Each must carry what burden the years may bestow.

Until burdens and bearers alike are laid low.

At the end of the road is a couch and a pall, And it may be the couch is the end of it all. Or it may be the spirit, released from the clod, Shares the freedom of time with the infinite God.

'Tis but folly to dig into moss covered creeds. Let your life be a record of generous deeds. In Not the wisest may fathom futurity's plan, But the weakest may live as becometh a man.—Frank Putnam in London Public Opinion.

The Canyon of the Yellowstone.

The canyon is so tremendously wild and impressive that even the great falls cannot hold your attention, says John Muir in The Atlantic. It is about 20 miles long and 1,000 feet deep—a weird, unearthly looking gorge of jagged, fantastic architecture and most brilliantly colored. It is not the depth or shape of the canyon, nor the waterfalls, nor the green and gray river chanting its brave song as it goes foaming on its way, that most impresses the observer, but the colors of the decomposed volcanic rocks. With few exceptions the traveler in strange lands finds that however much the scenery and vegetation in different countries may change Mother Earth is ever familiar and the same. But here the very ground is changed, as if belonging to some other world. The walls of the canyon from top to bottom burn in a perfect glory of color, confounding and dazzling when the sun is shining—white, yellow, green, blue, vermillion and various other shades of red indefinitely blending. All the earth hereabouts seems to be paint. Millions of tons of it lie in sight, exposed to wind and weather as if of no account, yet marvelously fresh and bright, fast colors not to be washed out or bleached out by either sunshine or storms.

Electric Propulsion of Ships.

Up to the present electricity has scarcely been thought suitable as the principal motive or propelling power for the larger type of vessels. This is undoubtedly owing to the fact that for a given horsepower a triple or quadruple expansion steam engine would take up less space and probably weigh less than an electrical installation of equal power. Storage batteries are out of the question for such uses, although persons not well up in electrical subjects frequently wonder why our ocean greyhounds are not propelled by some such method. It may interest some of our readers to know that a vessel requiring an average of 10,000 horsepower to propel it across the Atlantic, and displacing 5,000 tons, would be urged to carry, with its batteries alone made use of, 324,480,000 pounds of such batteries, or, in other words, the motive power alone would weigh 162,240 tons, or 30 times as much as the ship.—Electricity.

WELLSVILLE.

BIG FOURTH OF JULY

Procession, Road Race and Ball Game.

BALLOON SCHEDULED TO GO UP

A Committee of 50 Will Have General Charge of What Will Be the Largest Celebration Wellsville Ever Had—The Meeting Was a Success.

If Wellsville does not have a rousing Fourth of July it will not be because the enthusiastic citizens who assembled at city hall last night are opposed to a big celebration.

A large crowd assembled in city hall at the appointed time, and Chief Lounds, of the fire department, called the meeting to order. Wilbur Snediker was chosen chairman, Joe Davis secretary, and Doctor Hutchison treasurer of the organization that will have the celebration in charge. A committee of 50 will be appointed at once, and upon them will in the main fall the work. They will be divided so that every branch of the day's entertainment can be cared for, and if they do their duty well the celebration will be the great success everybody expects. A meeting will be held next Tuesday evening at the rooms of the fire department, and every man is expected to be in his place.

It is proposed to have all kinds of sports, chief among them being a road race under a peculiar idea. Riders from Liverpool, Irondale, Toronto and Wellsville will ride to the forks of the road at Yellow Creek. From there they will ride their best to some appointed place in town where the finish will be witnessed by a large crowd. Then there will be a balloon ascension and an industrial parade. All business men will be asked to decorate wagons and have them in the parade while the railroad, the rolling mill and other large establishments will be asked to take part. The afternoon will be taken up by a baseball game, and in the evening there will be a splendid display of fireworks.

The News of Wellsville.

Council and the board of education will meet Monday evening.

Miss Elsie Allmon, who has been visiting her sister Miss Maude Allmon for a few days, returned to her home in Hammondsville yesterday.

Harry and Henry Minnick and family are visiting friends in Akron.

Answering to Roll Call.

This one fought with Jackson and faced the fight with Lee,
 That one followed Sherman as he galloped to the sea,
 But they're marching on together just as friendly as can be,
 And they'll answer to the roll call in the morning!

They'll rally to the fight
 In the stormy day and night
 In bonds that no cruel fate shall sever,
 While the storm winds waft on high
 Their ringing batt'ry—
 "Our country—our country forever!"

The brave old flag above them is rippling down its red,
 Each crimson stripe the emblem of the blood by heroes shed.
 It shall wave for them victorious or droop above them dead,
 For they'll answer to the roll call in the morning!

They'll rally to the fight
 In the stormy day and night
 In bonds that no cruel fate shall sever,
 While their far famed batt'ry
 Shall go ringing to the sky,
 "Our country—our country forever!"

Busy Time For Tattooists.

The various Bowery "professors" who make a living by tattooing American flags on the arms and chests of the rising generation are exceedingly busy at this time. Hundreds of youths are having symbols of patriotism affixed to their skins with india ink. The pain of the operation makes them hate our country's foes worse than ever. Some of the tattooists' clients like to have pictures on their arms of Uncle Sam throttling a villainous looking Spanish don in regulation bullfighter's costume. On the Bowery there are regular tattooing establishments, some of which employ several "professors," and they have had to take on new hands since the war fever broke out. A rough sketch is made on paper and adapted to suit the taste of the customer before it is transferred to his epidermis.—New York World.

How We Use Our Lives.

If you are fond of such statistics, read this table, drawn up by Gabriel Peignot: A man of 50 years, of ordinary health, of active life, of regular habit, comfortable in all circumstances of money, should give out of 18,250 days 6,082 days to sleep, 550 to sickness, 1,522 to his meals, 5,532 to work, 671 to exercise, to sports, the hunt, travel 3,803 days, and he should have consumed 27,080 pounds of bread, 6,080 of meat, 4,675 of vegetables, eggs and fruit, 31,180 liters of wine, spirits and water.—Boston Journal.

It is estimated that more than 75,000 fishermen go out of New York every Sunday and that they spend on an average of \$2 each on the sport.

His New Leg.

In a city not many miles from Troy is an organization which believes in cures by faith. The president is a woman, zealous of good works. For some weeks she had observed a worthy appearing elderly man daily going by her home, and noticed that he walked considerably lame. She thought him a subject of prayerful consideration and began daily prayers in his behalf. One morning soon after she noticed him going by, apparently free from any lameness, and ventured to speak to him of this fact.
 "Yes," he responded, "I do get along a good deal better today than for many days past. My old cork leg had got somewhat out of good motion, and yesterday I obtained a new one."—Troy Press.

Answering to Roll Call.

This one fought with Jackson and faced the fight with Lee,
That one followed Sherman as he galloped to the sea,
But they're marching on together just as friendly as can be,
And they'll answer to the roll call in the morning!

They'll rally to the fight
In the stormy day and night
In bonds that no cruel fate shall sever,
While the storm winds waft on high
Their ringing batt'ery—
"Our country—our country forever!"

The brave old flag above them is rippling down its red,
Each crimson stripe the emblem of the blood by heroes shed.
It shall wave for them victorious or droop above them dead,
For they'll answer to the roll call in the morning!

They'll rally to the fight
In the stormy day and night
In bonds that no cruel fate shall sever,
While their far famed batt'ery
Shall go ringing to the sky,
"Our country—our country forever!"
—F. L. Stanton in Chicago Times-Herald.

Busy Time For Tattooists.

The various Bowery "professors" who make a living by tattooing American flags on the arms and chests of the rising generation are exceedingly busy at this time. Hundreds of youths are having symbols of patriotism affixed to their skins with india ink. The pain of the operation makes them hate our country's foes worse than ever. Some of the tattooists' clients like to have pictures on their arms of Uncle Sam throttling a villainous looking Spanish don in regulation bullfighter's costume. On the Bowery there are regular tattooing establishments, some of which employ several "professors," and they have had to take on new hands since the war fever broke out. A rough sketch is made on paper and adapted to suit the taste of the customer before it is transferred to his epidermis. —New York World.

How We Use Our Lives.

If you are fond of such statistics, read this table, drawn up by Gabriel Peignot: A man of 50 years, of ordinary health, of active life, of regular habit, comfortable in all circumstances of money, should give out of 18,250 days, 6,082 days to sleep, 550 to sickness, 1,522 to his meals, 5,532 to work, 671 to exercise, to sports, the hunt, travel, 3,803 days, and he should have consumed 27,080 pounds of bread, 6,080 of meat, 4,675 of vegetables, eggs and fruit, 31,180 liters of wine, spirits and water. —Boston Journal.

It is estimated that more than 75,000 fishermen go out of New York every Sunday and that they spend on an average of \$3 each on the sport.

His New Leg.

In a city not many miles from Troy is an organization which believes in cures by faith. The president is a woman, zealous of good works. For some weeks she had observed a worthy appearing elderly man daily going by her home, and noticed that he walked considerably lame. She thought him a subject of prayerful consideration and began daily prayers in his behalf. One morning soon after she noticed him going by, apparently free from any lameness, and ventured to speak to him of this fact.
"Yes," he responded, "I do get along a good deal better today than for many days past. My old cork leg had got somewhat out of good motion, and yesterday I obtained a new one." —Troy Press.

EAST LIVERPOOL, O., SATURDAY, JUNE 11.

"REMEMBER THE MAINE."

Spain cannot help Havana if she would. The blockading squadron can take care of any war ships she may send across the Atlantic.

If the Ohio regiments who have gone to Cuba do not come home covered with glory, not only the state but the whole country will be surprised.

AFTER Admiral Cervera has fired away his last ammunition in a vain attempt to hit the blockading fleet, he will realize if he never did before that he is in a bottle with the cork driven in.

It is true there has been some delay in equipping the troops and getting them ready for the front, but where is there a nation on earth that could do the job so completely and with so little loss of time as our own?

GENERAL MERRITT said at a banquet in San Francisco that the army would keep what the navy had won. We hope the handsome general has some inside information from Uncle Sam, for it would be anything but right to turn down Admiral Dewey after that splendid victory he won at Manila.

CONDITION OF TRADE.

This is a big country and never was its size more clearly demonstrated than since the present war began. Trade was staggered for a few weeks, but with that buoyancy for which the country is noted, it recovered, and at present conditions could scarcely be better. The iron industry has more orders than it can conveniently fill, and as iron goes so goes the trade of the United States. The withdrawal of 200,000 men from the peaceful avenue of life has created a demand for labor that is already being felt, while the branches of industry which supply these men with food and clothing are booming. The retail trade is also in excellent condition, the proportion of failures being very small. Taken all in all the country has no cause for complaint. Winning a place among the foremost nations of the earth, and taking care of the people at home is a record seldom equalled and never surpassed in the history of the world.

TALKING OF PEACE.

When the United States decided to intervene in behalf of the poor, starving thousands of Cuba, the American people believed in their cause, and were determined to carry it to the end. That determination is as strong today as the day when war was declared. The wily diplomats of Spain may talk peace, and the equally wily diplomats of Germany, France and Russia may encourage them in forwarding their established plan, but the American people want none of it. The vast majority are opposed to peace at this time.

Spain has demonstrated her inability to meet us on sea, and the next few days will doubtless show that she cannot meet us on land. With an immense number of men under arms, all anxious for a brush with the butchers, there is no denying the result. Spain will be brought to her knees. Then let her sue for peace, and Uncle Sam will dictate the terms. To do it now would be to accept what the powers of Europe desire, and we are not in that business. At present we are waging war with Spain.

COOL SUMMER CLOTHES

The Soldiers Preparing For a Torrid Clime.

A REWARD FOR LEAN MEATS

Statesman and Soldier In the Same Picture—Surgeons Have Stopped the Sale of Pies—Captain Hill Has a Fine New Cannon.

CAMP ALGER, June 10.—[Special]—The Eighth regiment is not complaining so much of the heat today for our requisition for new clothing was in a measure filled yesterday. The light, unlined blouses issued by the government are very comfortable, and like all other things given out by Uncle Sam are of good quality. The blouses are deducted from the soldiers' annual allowance. They are intended for service in a very warm climate.

Rations for ten days were issued today, and with them as a diversion came several crates of canned goods. They didn't, however, forget the extra pork. It is known as "extra fine, clear sides," and every man in camp is willing to swear that clear is good, since a liberal reward will be paid for the person, scientists not excluded, who will find the slightest trace of lean. However we manage to trade it to the numerous hucksters who throng the camp, at about half price, for such extras as cabbage, onions, radishes, strawberries and a great many other things. We also have a great deal of bread for trading purposes, it being impossible for a man to eat his allowance of 18 ounces and what other rations are given him.

Since the boys received their pay we have had some dainties. An assessment is made on all willing members, and the purchases are tastefully prepared by our cooks. Today as an extra we had some good fish and tomorrow oysters in all styles will be served.

Yesterday a rumor came to camp that General Merritt was dissatisfied with the western troops because of their poor equipment, and a crack brigade from east was needed. The camp was all excited over a probable move to the Philippines, for we are known as the crack organization of Camp Alger, and will compete with any other for the honor. The rumor, while declared to be official, proved like others to be a rumor. The latest story is that we are to go to Fort Meyer. Then we can have an occasional dip in the Potomac.

The surgeons have stopped the sale of pies and lemonade in camp, the former for being adulterated with injurious compounds, and the latter being composed principally of tartaric acid as a substitute for lemons. To these two articles have been ascribed the numerous cases of sickness in camp.

A roster of Company E has been taken by an agent and neat memorials will be prepared at a nominal price when the new recruits arrive.

Because Uncle Sam's paymaster has been here some of the boys have money to burn, not a little of it being gold. After we have been out for a time money will be scarcer. The insignificant \$13 a month, for that is the real pay of privates in spite of the stories about \$15.60, will seem a fortune. Some states, however add 20 per cent to the soldiers' pay in time of war.

Captain Hill has added to his equipment a small Colt's cannon and cartridge belt, while all our commissioned officers are supplying themselves with the new unlined officer's blouse, which is almost the same style as that worn by enlisted men, brass buttons and all.

Sergeant Hanley and Congressman Tayler were "shot" the other day by a kodak fiend. The culprit, however, was kind enough to present the sergeant with a copy, and he has written on the back, "Soldier and Statesman." Amateur photographers are very numerous.

Sergeant Smith and Private McKinney appeared before a magistrate at Falls Church yesterday to testify against a liquor dealer they had captured. A plea of not guilty was entered, and on the request of the defendant the case was postponed for 20 days. A bond in the sum of \$200 was filed.

TRUMP.

WAITING ON PAPERS.

Lieutenant Anderson's Work Is Delayed.

About 15 new recruits signed the roll today, but there is still room for more and the lieutenant is anxious that all patriotic young men between the ages of 21 and 30 will enlist.

Word was received from Sergeants Weidman and Hudson at Canton that they were having no trouble in securing

recruits, and would soon have their companies filled, while Corporal Ballard reported from Alliance that he had all the men he needed, and they were ready to be mustered into service.

The recruiting headquarters at the Phoenix club rooms were well filled this morning when Lieutenant Anderson started his second day's work.

To the people who signed the roll yesterday he read a telegram from Adjutant General Axline, which said the muster roles had been sent by express. They were expected at noon, but failed to arrive, and the signing of the roll and the physical examination will necessarily be delayed until Monday morning at 9 o'clock.

Lieutenant Anderson will endeavor to finish his work here Monday and leave Tuesday morning for Alliance.

ARRESTED IN EAST END.

A Georgetown Man Was Being Taken Home by His Child.

Thomas Nelson, a turner at the East End pottery, who lives in Georgetown, was arrested about 10 o'clock last night by Officer Frank White while he was going home. Nelson came to town early in the day with his young child, and had an argument with an individual and was hurt. This made him angry and he was soon drunk. During the storm he left his child sitting on the steps of McKinnon's store in East End. After remaining there some time she was taken in. Nelson soon returned from a Mulberry street saloon, and finding his child started up the track for Smith's Ferry. He was being guided by the child and was as Mayor Bough said "making Rome howl in that section." He was given a severe lecture and was fined \$5 and costs, and committed to jail until both were paid.

ENTERTAINING THE CHILDREN.

Superintendent Southworth Took Them to Church.

The 130 healthy youngsters at the Fairmount home are just now having an unusually good time. Last Sunday 70 children were taken to Alliance to attend the children's day exercises, and tomorrow another company will be taken to Beach church not far from the home. Thursday 150 quarts of strawberries were picked on the farm, and the children were served with them at supper.

HANDS BURNED

As the Result of a Gasoline Explosion.

The fire department was called out yesterday by an alarm from box 18 in Avondale. It was caused by a small fire brought about by a gasoline store exploding in a house occupied by a family named Scott. The fire was soon extinguished and the damage was slight.

Mrs. Scott had her arms and hands badly burned as a result of the explosion.

CROPS ARE GOOD.

Farmers Think the Year Will Be Fruitful.

According to the opinion of the farmers living in this vicinity the crops this season will be the best in years and the fields are loaded with grain.

They also claim that fruit will be scarce, especially apples, and trees that were covered with blossoms do not have an apple on them. They are unable to account for the failure of the trees to bear fruit.

TO THE BITTER END.

Spain Has Decided to Fight to the Last.

MADRID, June 11.—[Special]—It is declared in political circles here that no suggestions of peace have been received from the United States, and should any come they will be received with scorn. Spain has decided, high officials say, to pursue the war to the bitter end.

Will Attend a Celebration.

It was learned last night that a number of people from this place will next Wednesday attend the centennial anniversary of the Presbyterian church at St. Clairsville.

The church was erected in 1798, and its present pastor, Doctor Alexander, who has been officiating 31 years, will celebrate his 61st anniversary the same day.

Bring your family and friends to Rock Springs tomorrow, and hear the grand concert. Admission 10c. Children free.

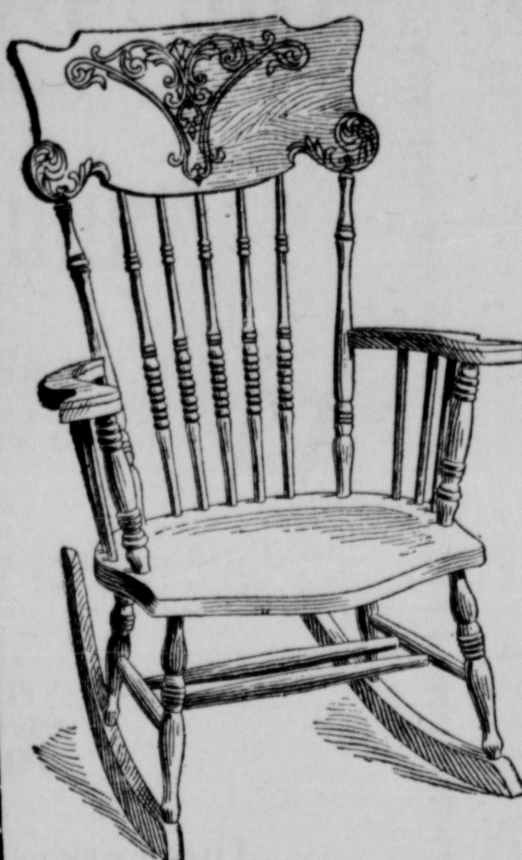

Two Families Came.

The household effects of D. W. Johnson were received at the freight depot this morning. They came from Tiffin. The goods of James Stevenson were received from the same place.

HONORED EAST LIVERPOOL.

Criss McConnell Given a High Office in the State.

Criss McConnell, who represented General Garfield camp, Sons of Veterans, at the state encampment at Columbus, was unanimously elected junior vice commander.

Mr. McConnell is an employe of the News Review, and is one of the best known members of the order in the state. He is a splendid officer, and the state encampment made a wise choice in selecting him to fill the important position. Two years ago he occupied the position of major on the commanding officer's staff and filled the office in a very acceptable manner.

Gave Some One Flowers.

This morning a young girl was seen standing on the platform at the freight depot with a large bouquet of flowers in her hand. The accommodation train was just leaving the station, and when it reached the depot the flowers were thrown in the market car door. A number of people saw the act from the freight office.

MORMONS ARE WORKING

THEY DISTRIBUTE LITERATURE

A Number of Residents Have Objected, but No Cases Have Developed Where the Agents Were Met With Violence. Amusing Incidents.

The Mormons are hard at work in the city endeavoring to spread their religion, but to the present they have met with little or no success.

Since the elders came to the city they have held a number of meetings, but converts have not been as numerous as they anticipated. The members of the church already here have been very faithful in the performance of their duty, and have responded whenever called.

Not being satisfied the agents spread their work into the country, and again ran against an obstacle. They selected the section of Madison township largely populated by Presbyterians, and were of course unsuccessful. Then they turned their attention to this city, and many people have heard from them in the past few weeks. They are distributing the literature which advocates their doctrine, and holding converse with people they could not hope to reach in any other way.

One well known resident met the agent at the door and asked his business. The man replied in words he did not comprehend, but soon made it clear that he was a Mormon doing missionary work. The citizen at once ordered him to move on. A number of similar cases have been reported, but in no instance has it been shown that violence was done the stranger.

"I think the Mormons have struck barren ground in coming to Liverpool," said a well informed man today. "The people here are far too intelligent to be taken in by the smooth-tongued gentlemen from Utah. Another thing against them is the fact that in almost every house there can be found at least one person who is in some way connected with the church. I think they should be encouraged to stay, for while they are here they are doing damage in no other section."

VETERANS OF THE WAR

Should Not Be Admitted to the Grand Army.

ACTION OF GEN. LYON POST

They Think the Object For Which the Organization Was Formed Will Have Been Attained When All Are Dead, and It Should Not Be Perpetuated.

The members of General Lyon post, Grand Army, do not believe the veterans of the Spanish war should be admitted to membership in their order.

The movement began in the east some time ago, and at once attracted attention, the argument being made that it was only just and right to honor the soldiers by a place in the order. New York looked upon the matter with favor, but it was strongly opposed in Pennsylvania. The state encampment voted against it this week, and Gen. Lyon post believed the time had come for action.

The resolutions adopted last night cover the ground completely. They explain that the Grand Army was organized for a purpose, and when the last Union veteran of the civil war has been gathered home that purpose will have been accomplished. They know that men who were in arms against the government cannot become members of the order, and as some of them will be veterans of this war it is easy to see a tangle would result. The state encampment at Mount Vernon next week will likely act on the matter.

THE UNIFORM LIST

Will Be the Important Point to Be Considered.

The local correspondent of the Commoner and Glassworker has this to say of the Brotherhood convention to be held in this city.

"The uniform price list will be the most important matter before the convention. The election of officers for the coming year will also be one of the important matters and one which should be considered carefully, as the officers of the organization will have important work the coming year that will require a knowledge of the conditions and affairs that will take cool heads to consider and settle. While I have heard nothing that will denote a change, as the men are generally satisfied with the work done the past year, yet I look for some changes, but that is something no one can tell till after the election, but I hope, with a good many other earnest workers, that the convention will choose the best men and let the good work go on."

NEXT WEEK

Will the Board of Equalization Wind Up Its Work.

The board of equalization have completed the work of going over the books of the assessors, and Monday morning will commence their annual inspection of the new buildings in the city. It will probably take them all of next week to complete their work.

They came over in the German Lloyd steamer Bremen and are now with friends in Third street.

EPWORTH LEAGUE.

Lesson For the Week Beginning June 12.
Comment by Rev. W. J. Yates, A. M.
Topic, Life Marring and Molding.

SCRIPTURE READING.—Jer. xviii, 1-6.

Jeremiah, the prophet, goes to the workshop of a potter. There he sees an earthen jar in process of molding. The clay will not take the shape first intended and so the maker shapes it into a different form and makes a vessel adapted to different uses from that he first designed.

All this Jeremiah views as an object lesson of the spiritual condition of the people Israel. God had intended them, as His own peculiar people, to teach all men righteous living and heart holiness. They had shown themselves utterly unworthy the divine intention. They had forsaken the worship of Jehovah, the living and only true God and had turned to idols. In place of pure hearts and loving deeds they had become possessed of evil spirits and were vicious in life.

God turns from His purpose of making them prosperous as a people and exalting them among the nations. He denounces punishment against them for their wickedness.

All these threatenings were fearfully fulfilled in the years which followed.

The lesson has wide application. It contains warning for all at the present time. It applies to nations, communities and individuals.

Prosperity and happiness can come permanently only from love of God and righteousness toward men. Whoever turns from the truth and prefers the false and untrue unites himself for the service of the God who has made the universe on lines of eternal verity. He becomes as clay, hardened in the process of manufacture and unfit for the finer and better uses. Not even God can make that man into nobility of life and service. He becomes debased and low.

But if a person or nation seeks to do right and purifies the life, the Scriptures declare, "if a man purge himself, he shall be a vessel unto honor, sanctified and meet for the Master's use, prepared unto every good work."

"Francis Forrester."

This was the title by which Dr. Daniel Wise was for many years known among the readers of The Sunday School Advocate and the young people of Methodism. No writer for youth has done better work than he. No one has

REV. DANIEL WISE, D. D.

been more beloved. Born in England in 1818, he came to the United States in 1833. He has been a member of the New England Southern conference of the Methodist Episcopal church since 1843. From 1856 till 1872 he was secretary of the Sunday School Union and Tract societies. He was also editor of Zion's Herald for a period. He is the author of many books for young people, some of which are widely read. He resides at Englewood, N. J. Though the Epworth League came too late for him to be active in its organization his interest in the young people is unabated, and they in turn should know the work and honor the name of one who has done so much in years gone by to aid the youth of Methodism and America to develop intelligent piety.

Furnish the Feast.

The need that the gospel shall be carried to those unreached in the regular church services was never felt more keenly than at the present time. "Go out into the highways and hedges and compel them to come in that My feast may be furnished with guests," is being heard and heeded by many of the Lord's servants. The League should help in this work. Invite those who work by you in the week in store or factory or office to worship with you on Sunday. Invite them, go after them, and when they come give them courteous welcome. Introduce them to other young people and make them feel at home.

"To everything there is a season," and every season has its work and purpose. Summer is here. Whether we enjoy the hot weather or not it is best to welcome it and get the most possible from it. What new sights are you seeing, what new sounds from the myriad voiced life around you are coming to your soul? Are you hearing the heavenly choirs of birds and trees, rocks, rills and skies which are tuneful with their Maker's praise? "Day unto day uttereth speech and night unto night sheweth

Winona lake, Indiana, (formerly Eagle lake) is an attractive summer haven on the Pennsylvania lines near Warsaw, Indiana. As the site of Winona Assembly and Summer school, this resort has grown into popular favor very rapidly. Improvements made on the two hundred acres of romantic woodland which stretches nearly two miles along the eastern shore of Winona lake, a beautiful sheet of water, include all the comforts and conveniences for a highly enjoyable sojourn. Ample facilities are at hand for satisfactory entertainment at reasonable rates at the commodious hotel which adjoins the railway station at the entrance to the grounds, in cosy cottages, or in tents as may be preferred.

Persons who may desire to combine devotion, entertainment and instruction with rest and recreation will find Winona lake the ideal spot for invigorating both mind and body by instructive entertainment and study and health-giving recreation. The educational work of the Summer school is in charge of well known instructors. The college halls are equipped with all required paraphernalia; the large auditorium in which the Assembly meets, and in which prominent lecturers are heard during the season, has a seating capacity of over 3,000. An amphitheatre, race track and other facilities for athletic pastimes are provided. The fishing, bathing and boating are fine, the large fleet of boats being of the best.

The season of 1898 will open May 15. Commencing on that date excursion tickets with 15 day limit will be on sale via Pennsylvania lines. They may be obtained during May, June, July and August. The sale of season excursion tickets will begin June 1, and continue daily until Sept. 30. Season excursion tickets will be good returning until Oct. 31.

Full information about the attractions at "Beautiful Winona," its Assembly and Summer school, etc., will be cheerfully furnished all who address Mr. Sol. C. Dickey, secretary, Winona Lake, Ind. Inquiries about excursion rates, time of trains, etc., should be addressed to passenger and ticket agents of the Pennsylvania lines or to F. Van Dusen, chief assistant general passenger agent, Pittsburg, Pa.

VETERANS OF THE WAR

Should Not Be Admitted to the Grand Army.

ACTION OF GEN. LYON POST

They Think the Object For Which the Organization Was Formed Will Have Been Attained When All Are Dead, and It Should Not Be Perpetuated.

The members of General Lyon post, Grand Army, do not believe the veterans of the Spanish war should be admitted to membership in their order.

The movement began in the east some time ago, and at once attracted attention, the argument being made that it was only just and right to honor the soldiers by a place in the order. New York looked upon the matter with favor, but it was strongly opposed in Pennsylvania. The state encampment voted against it this week, and Gen. Lyon post believed the time had come for action.

The resolutions adopted last night cover the ground completely. They explain that the Grand Army was organized for a purpose, and when the last Union veteran of the civil war has been gathered home that purpose will have been accomplished. They know that men who were in arms against the government cannot become members of the order, and as some of them will be veterans of this war it is easy to see a tangle would result. The state encampment at Mount Vernon next week will likely act on the matter.

THE UNIFORM LIST

Will Be the Important Point to Be Considered.

The local correspondent of the Commoner and Glassworker has this to say of the Brotherhood convention to be held in this city.

"The uniform price list will be the most important matter before the convention. The election of officers for the coming year will also be one of the important matters and one which should be considered carefully, as the officers of the organization will have important work the coming year that will require a knowledge of the conditions and affairs that will take cool heads to consider and settle. While I have heard nothing that will denote a change, as the men are generally satisfied with the work done the past year, yet I look for some changes, but that is something no one can tell 'till after the election, but I hope, with a good many other earnest workers, that the convention will choose the best men and let the good work go on."

NEXT WEEK

Will the Board of Equalization Wind Up Its Work.

The board of equalization have completed the work of going over the books of the assessors, and Monday morning will commence their annual inspection of the new buildings in the city. It will probably take them all of next week to complete their work.

German Immigrants In Town.

Yesterday afternoon four German immigrants arrived in this city.

They were Mrs. Emilie Wendland and three children. None of them could speak English, and had it not been for the kindness of a traveling salesman they would have been lost entirely. This morning their baggage arrived, and consisted of two large baskets, one sack and one large wooden case. They came over in the German Lloyd steamer Bremen and are now with friends in Third street.

EPWORTH LEAGUE.

Lesson For the Week Beginning June 12.
Comment by Rev. W. J. Yates, A. M.
Topic, Life Marring and Molding.

SCRIPTURE READING.—Jer. xviii, 1-6.
Jeremiah, the prophet, goes to the workshop of a potter. There he sees an earthen jar in process of molding. The clay will not take the shape fast intended and so the maker shapes it into a different form and makes a vessel adapted to different uses from that he first designed.

All this Jeremiah views as an object lesson of the spiritual condition of the people Israel. God had intended them, as His own peculiar people, to teach all men righteous living and heart holiness. They had shown themselves utterly unworthy the divine intention. They had forsaken the worship of Jehovah, the living and only true God and had turned to idols. In place of pure hearts and loving deeds they had become possessed of evil spirits and were vicious in life.

God turns from His purpose of making them prosperous as a people and exalting them among the nations. He denounces punishment against them for their wickedness.

All these threatenings were fearfully fulfilled in the years which followed.

The lesson has wide application. It contains warning for all at the present time. It applies to nations, communities and individuals.

Prosperity and happiness can come permanently only from love of God and righteousness toward men. Whoever turns from the truth and prefers the false and untrue unites himself for the service of the God who has made the universe on lines of eternal verity. He becomes as clay, hardened in the process of manufacture and unfit for the finer and better uses. Not even God can make that man into nobility of life and service. He becomes debased and low.

But if a person or nation seeks to do right and purifies the life, the Scriptures declare, "if a man purge himself, he shall be a vessel unto honor, sanctified and meet for the Master's use, prepared unto every good work."

been more beloved. Born in England in 1813, he came to the United States in 1833. He has been a member of the New England Southern conference of the Methodist Episcopal church since 1843. From 1856 till 1872 he was secretary of the Sunday School Union and Tract societies. He was also editor of Zion's Herald for a period. He is the author of many books for young people, some of which are widely read. He resides at Englewood, N. J. Though the Epworth League came too late for him to be active in its organization his interest in the young people is unabated, and they in turn should know the work and honor the name of one who has done so much in years gone by to aid the youth of Methodism and America to develop intelligent piety.

Furnish the Feast.

The need that the gospel shall be carried to those unreached in the regular church services was never felt more keenly than at the present time. "Go out into the highways and hedges and compel them to come in that My feast may be furnished with guests," is being heard and heeded by many of the Lord's servants. The League should help in this work. Invite those who work by you in the week in store or factory or office to worship with you on Sunday. Invite them, go after them, and when they come give them courteous welcome. Introduce them to other young people and make them feel at home.

"To everything there is a season," and every season has its work and purpose. Summer is here. Whether we enjoy the hot weather or not it is best to welcome it and get the most possible from it. What new sights are you seeing, what new sounds from the myriad voiced life around you are coming to your soul? Are you hearing the heavenly choirs of birds and trees, rocks, rills and skies which are tuneless with their Maker's praise? "Day unto day uttereth speech and night unto night sheweth

The Gift of Love.

It is in loving, not in being loved,
The heart is blest.
It is in giving, not in seeking gifts,
We find our quest.

If thou art hungry, lacking heavenly bread,
Give hope and cheer.
If thou art sad and wouldst be comforted,

So shall thy soul be fed, and thou indeed
Shalt truly live.

WAS ALLOWED TO GO

The Woman Arrested Yesterday Released.

NO CHARGE WAS ENTERED

She Claimed to Have Been Ill, and Lay Down Under the Apple Tree to Recover. No One Knows Her and She Gave No Name.

The mysterious woman who spent yesterday in jail was released late in the afternoon, no charge having been entered against her.

The woman was found lying under an apple tree near the bridge yesterday morning, and was from all appearances recovering from a night of debauchery. She seemed very drunk, and the officers experienced some difficulty in getting her to jail. There she remained, apparently as drunk as when she was arrested, the authorities intending to give her a hearing as soon as she recovered her senses.

Late in the afternoon she appeared rational, and was taken before Mayor Bough, who asked her name. She replied that she had kept that information since she was arrested, and she guessed she would not tell it to him. She also refused to say anything about herself, or to tell whether she was a resident and had friends in the city. When asked whether she had been drunk she indignantly denied the charge, asserting that she had become ill yesterday morning, and while passing the place where she had been found had decided to remain there until she recovered. The woman said she had no intention of remaining there, and did not know she would be arrested. Mayor Bough believed the woman was drunk when he heard of the matter early yesterday, but she pleaded so for liberty, and as no charge had been entered against her he allowed her to go. She thanked him, and hastily left city hall.

The woman was a stranger to all who saw her, and as she refused to the last to give her name she went away very much of a mystery.

The will of A. S. Shepherd has been admitted, and Hettie Shepherd appointed executor.

WAR BILL PASSED.

The Measure Went Through the Senate and Only Now Awaits Signatures.

WASHINGTON, June 11.—The conference report on the war revenue bill was agreed to by the senate yesterday afternoon after a discussion lasting about four hours. The debate upon the measure was without special interest and was entirely devoid of acrimonious features. It was a foregone conclusion that the report would be agreed to, and the only question of interest involved was how soon a vote could be reached.

The debate indicated generally that the bill as agreed upon by the conference was reasonably satisfactory to everybody except as to the bond provision. The votes cast against the adoption of the report reflected the opinions of those senators who are opposed to any increase in the interest bearing debt of the country.

The report was agreed to by the decisive vote of 43 to 22. Every Republican voted for the measure, and their votes were supplemented by those of eight Democrats, one Silver Republican and one Independent. The Democrats who voted for the adoption of the report were Messrs. Caffery, Gorman, Lindsay, McEnery, Mitchell, Morgan, Murphy and Turpie, the Silver Republican was Mr. Mantle and the Independent was Mr. Kyle. The vote against the report was cast by 16 Democrats, three Silver Republicans and three Populists.

As soon as the engrossed bill can be signed by the presiding officers of the two branches of congress, it will be sent to the president.

Just at the close of the session last evening a bitter personal discussion was precipitated by Mr. Butler (Pop., N. C.), who attacked Mr. Kyle for having voted for the issuance of bonds. Mr. Butler, speaking as the chairman of the Populist national committee, officially declared that Mr. Kyle did not represent the Populist party. Mr. Kyle replied warmly, saying that he was responsible for his political actions not to Mr. Butler, but to his conscience and to his constituents. Subsequently he denounced as "intentional and malicious falsehoods" some of the statements made about him by Mr. Pettigrew.

A PROTEST FROM JAPAN.

Don't Like the Tea Tax Feature of War Revenue Bill.

WASHINGTON, June 11.—Japan has entered a strong protest against the duty on tea provided for in the war revenue bill. The protest was sent to the state department and by it forwarded to the conference committee. The protest is based on the ground that a uniform duty of 10 cents a pound on all teas, cheap or dear, will have the effect of ruining Japan's tea trade with the United States.

Japan, it says, would not object to a duty graded according to value. The protest was submitted as a result of instructions sent from the Japanese foreign office.

Red Cross Auxiliary.

PITTSBURGH, June 11.—A meeting of the First Pennsylvania Red Cross auxiliary of Pittsburg was held in the rooms of the chamber of commerce Thursday. The secretary was instructed to notify the New York society that the Pittsburg auxiliary would be willing to furnish a sterilizing plant and 500 pajamas to begin with. Another meeting of the society will be called soon.

HELPED BUSINESS.

Assurance That Cervera's Fleet Was Bot-tled Up, Aided Trade, Said Dun's Review.

NEW YORK, June 11.—R. G. Dun & Co.'s Weekly Review of Trade, issued today, says in part:

"The certainty that the Spanish Atlantic fleet is imprisoned and powerless to do harm has helped to make the tone of the market more confident. Every step of progress during the week which has looked towards an early termination of the struggle has been reflected in the market and in lower rates for money. All industries have felt the uplifting influence. In finance the growing anxiety to lend on even long exchange at low rates in place of shipments of gold to this country begins to accumulate a standing credit in favor of the United States. A stronger situation it would be difficult to describe.

"Men talk as if wheat had gone down out of sight, but the collapse of May speculation has only made it more evident that the outside world requires nearly, if not quite all, the wheat this country can spare."

There have been big exports of wheat and corn.

"Iron and steel production has declined because establishments have stopped for repairs.

"The woolen manufacturers are buying little wool, and the sales at the three chief markets during the past week were only 2,549,300 pounds, against 4,878,750 in 1892. But the demand for goods proves somewhat better in many directions than was expected, and the government requirements have compelled some manufacturers to buy somewhat largely grades of wool which they have not expected to require.

"Failures for the week have been 203 in the United States, against 262 last year, and 17 in Canada, against 30 last year."

PLAN OF DR. CHAN.

Chinese Missionary Work Among Chinamen in Philippines.

CLEVELAND, June 11.—Dr. Joseph F. Chan, a Chinese physician, highly educated and a naturalized citizen residing here, proposes to enlist in the United

States regular army or to receive an appointment as surgeon. He will ask for authority to enlist a party of about 200 of his fellow countrymen in San Francisco and take them to the Philippines and do missionary work among the Chinese residents of that country.

He would influence them to become in favor of the government of the islands under the control of the United States, and would organize a large army of Chinamen to fight under the Stars and Stripes and to become allies of the army of invasion. The doctor is in correspondence with Governor Bushnell and the war department at Washington in reference to his plan.

To Christianize Chinese.

SAN FRANCISCO, June 11.—When shown the dispatch from Cleveland regarding Dr. Joseph F. Chan's proposed expedition to the Philippines for the purpose of doing missionary work among the 3,000,000 Chinese inhabitants of the islands favorable to the American cause the Chinese consul general in this city said that he had heard nothing of the proposed plan, but thought that such a scheme was feasible.

A WOMAN KILLED.

Fatal Electrical and Hail Storm at Canton and in the Vicinity.

CANTON, June 11.—For half an hour yesterday this section of the country was visited by the most terrific electrical and hail storm known in years. Wheat was literally hammered down and fruit trees stripped, entailing a loss which will amount to thousands of dollars. During the storm Mrs. Charles Northdurfter, residing one mile east of Canton, was instantly killed by lightning.

THE WHEELING AND LAKE ERIE.

Myron T. Herrick of the Opinion That Reorganization Will Go Through.

CLEVELAND, June 11.—Myron T. Herrick, one of the receivers of the Wheeling and Lake Erie Railway company, in speaking of the proposed reorganization of that road, said:

"While I have no inside information in the matter, I am of the opinion that the reorganization plan will go through successfully and will likely go into effect by Jan. 1 next.

"I became a receiver for the road about 18 months ago, and since that time I have doubled its earning, cut its expenses in half, expended fully \$1,000,000 in improvements and now there is a comfortable balance on the right side of the ledger."

The Woman Arrested Yesterday Released.

NO CHARGE WAS ENTERED

She Claimed to Have Been Ill, and Lay Down Under the Apple Tree to Recover. No One Knows Her and She Gave No Name.

The mysterious woman who spent yesterday in jail was released late in the afternoon, no charge having been entered against her.

The woman was found lying under an apple tree near the bridge yesterday morning, and was from all appearances recovering from a night of debauchery. She seemed very drunk, and the officers experienced some difficulty in getting her to jail. There she remained, apparently as drunk as when she was arrested, the authorities intending to give her a hearing as soon as she recovered her senses.

Late in the afternoon she appeared rational, and was taken before Mayor Bough, who asked her name. She replied that she had kept that information since she was arrested, and she guessed she would not tell it to him. She also refused to say anything about herself, or to tell whether she was a resident and had friends in the city. When asked whether she had been drunk she indignantly denied the charge, asserting that she had become ill yesterday morning, and while passing the place where she had been found had decided to remain there until she recovered. The woman said she had no intention of remaining there, and did not know she would be arrested. Mayor Bough believed the woman was drunk when he heard of the matter early yesterday, but she pleaded so for liberty, and as no charge had been entered against her he allowed her to go. She thanked him, and hastily left city hall.

The woman was a stranger to all who saw her, and as she refused to the last to give her name she went away very much of a mystery.

WAR BILL PASSED.

The Measure Went Through the Senate and Only Now Awaits Signatures.

WASHINGTON, June 11.—The conference report on the war revenue bill was agreed to by the senate yesterday afternoon after a discussion lasting about four hours. The debate upon the measure was without special interest and was entirely devoid of acrimonious features. It was a foregone conclusion that the report would be agreed to, and the only question of interest involved was how soon a vote could be reached.

The debate indicated generally that the bill as agreed upon by the conference was reasonably satisfactory to everybody except as to the bond provision. The votes cast against the adoption of the report reflected the opinions of those senators who are opposed to any increase in the interest bearing debt of the country.

The report was agreed to by the decisive vote of 43 to 23. Every Republican voted for the measure, and their votes were supplemented by those of eight Democrats, one Silver Republican and one Independent. The Democrats who voted for the adoption of the report were Messrs. Caffery, Gorman, Lindsay, McEnery, Mitchell, Morgan, Murphy and Turpie, the Silver Republican was Mr. Mantle and the Independent was Mr. Kyle. The vote against the report was cast by 16 Democrats, three Silver Republicans and three Populists.

As soon as the engrossed bill can be signed by the presiding officers of the two branches of congress, it will be sent to the president.

Just at the close of the session last evening a bitter personal discussion was precipitated by Mr. Butler (Pop., N. C.), who attacked Mr. Kyle for having voted for the issuance of bonds. Mr. Butler, speaking as the chairman of the Populist national committee, officially declared that Mr. Kyle did not represent the Populist party. Mr. Kyle replied warmly, saying that he was responsible for his political actions not to Mr. Butler, but to his conscience and to his constituents. Subsequently he denounced as "intentional and malicious falsehoods" some of the statements made about him by Mr. Pettigrew.

A PROTEST FROM JAPAN.

Don't Like the Tea Tax Feature of War Revenue Bill.

WASHINGTON, June 11.—Japan has entered a strong protest against the duty on tea provided for in the war revenue bill. The protest was sent to the state department and by it forwarded to the conference committee. The protest is based on the ground that a uniform duty of 10 cents a pound on all teas, cheap or dear, will have the effect of ruining Japan's tea trade with the United States.

Japan, it says, would not object to a duty graded according to value. The protest was submitted as a result of instructions sent from the Japanese foreign office.

TO BUSINESS MEN.

The combination prices of the NEWS REVIEW, advertisement in paper and bills from said advertisement, are cheaper than any other daily paper in the city, while the workmanship, material and inks made use of are incomparably superior to those of the would-be competitors. Test the matter. We will prove the truth of our assertion.

Printed envelopes, either 6 or 8 in size, at the NEWS REVIEW, from 95 cents per thousand up, according to quality. We defy competition in workmanship or material.

LOCAL BREVITIES.

Today is big pay.

Mrs. Otis Jones and child are seriously ill at her home in East End.

The mails for the week have been very heavy considering the season.

George Sebring left this afternoon for East Palestine where he will spend Sunday.

The Columbian club will entertain friends at Rock Spring next Thursday evening.

The seventh anniversary of the Y. M. C. A. will be observed in the churches of the city tomorrow.

Robert House, who has been seriously ill at his home in East End with typhoid fever, is convalescent.

B. C. Ansley returned this morning from Columbus where he attended the convention of the State Pharmaceutical association.

Work was commenced this morning moving the Kelly residence to the Keffer property at the corner of Jackson and Fifth streets.

The ladies who conducted the prayer service election day will hold a prayer meeting Monday evening at 8 o'clock in the First M. E. church.

Jack Robinson, a kiln hand at the Goodwin pottery, was overcome by the heat yesterday, and was removed to his home in Trentvale street.

Several fakirs arrived in the city on the early Pittsburg train this morning, and this afternoon Mayor Bough issued a one day street license to each one.

The first of a series of sunrise praise meetings to be held in the First M. E. church by the Epworth League will be held tomorrow morning at 6 o'clock.

Willie Foreman, who was adopted by Mr. and Mrs. William Beardmore several years ago, is very ill with typhoid fever, but it is believed he will recover.

The case of Alice Stevenson against Thomas Davidson will be heard in Squire Hill's court next Monday morning. The suit is to obtain judgment for \$5.78.

The work of paving Jackson street between Sixth and Seventh streets, was completed this morning and work started on the same street south of Sixth.

Notices were received in the city yesterday announcing the annual Christian Endeavor convention at Mansfield June 28 to 30. A number of young people from this place will attend.

The funeral services of George Anderson were held at his late home in Broadway this afternoon. A large number of friends were present. The services were conducted by Doctor Taggart.

This morning a basket of homing pigeons were sent to Salineville with a request that they be liberated immediately upon their arrival. The birds arrived at their lofts before noon, making very good time.

A valuable dog owned by Joe Williams, of the passenger depot, was poisoned at his home in College street last night. The animal was valued at \$25, and a search is now being made for the person who committed the act.

A sewer pipe running to the river on the Broadway wharf has broken, and the water is coming through the ground in the form of a spring. The flow rises to the height of several inches, and the water is as clear as any that is found about Liverpool.

Some of the policemen today appeared in their new uniforms. McMillan and White were the first to receive them, and Officers Grim, Whan and Mahony will have theirs next week. The helmets are expected to arrive on the 7:10 train, and if so, the officers will wear them tonight.

—Mrs. Flora Dorwart returned today to her home in Lisbon after a pleasant visit with friends in the city.

—Miss Amelia Meredith left this morning for the Cheat river, where she will remain several weeks camping with friends from this place, Coal Center and Monongahela City.

EX-SENATOR B. K. BRUCE.

How He Was Once Treated by a Mississippi Steamboat Captain.

On one of his latest visits to New York the late Mr. Bruce told of an experience which he had just after he was elected senator from Mississippi, and it was an experience which illustrates the tact and good sense which always characterized him. It was announced that the senator would go to Washington from his Mississippi home by one of the Mississippi steamboats, at least as far as St. Louis on his way. The captain, a man of the name of Lathers, was a typical Mississippi steamboat captain, and he was reported to have said that he would show the black senator when he got aboard of his boat that he would have to keep his place on that boat, and if he put on any airs because he happened to be senator the captain would teach him manners.

As soon as Bruce boarded the steamboat he sought the captain, and he said to him: "Captain Lathers, I am going to Washington, and a part of the way as passenger on your steamboat. My name is Bruce, and possibly you may have heard of me. What I wanted to say is that I know perfectly well what the feeling of many people who are travelers regarding persons of my color is. They cannot help it, and I cannot help it, and I am going to give them no occasion for any annoyance while I am a passenger on your boat. I simply ask you that you see to it that I am made as comfortable as possible, and I assure you that you will have no reason for complaint."

The bluff captain stepped back a pace or two, looked Bruce over, and then held out his hand and said with great emphasis: "By—! You shall sit at my table, you shall sit on my right hand on the entire trip, and if any man objects he will have to fight me. A man who can talk as you have and who is as fair as you are is a sight better fitted to be a United States senator than some of the white senators I have carried on this boat," and on that entire trip of some three days the captain made Bruce his guest.—Holland in Philadelphia Press.

HOFMANN'S COSTLY SPRAIN.

The Pianist's Recent Accident Deprived Him of Earning at Least \$2,500.

Although Josef Hofmann, the pianist, looks upon the accident which he met with recently as an experience any wheelman is likely to meet, yet his father and those who have the business management of his concert tour are hardly over their fright and have been contemplating with terror almost unspeakable the probable consequences had Hofmann broken a bone in his wrist or his hand instead of simply spraining some of his muscles.

The accident was a costly one, for it deprived Hofmann of the opportunity of earning at least \$2,500, which he was to have received for the series of concerts which he was obliged to cancel. On the afternoon before the accident happened he had played with Thomas' orchestra to a wildly enthusiastic audience, which packed the great Metropolitan Opera House, in New York from the orchestra seats to the remote gallery almost in the clouds, and he played superbly. His success was already established and there seemed every chance that in his tour through the country he was to enjoy the experiences which characterized Paderewski.

Yet Hofmann, who is a youth of a great deal of common sense, says that it is as necessary for a pianist to get exercise and maintain his strength as it is for him to practice the scales. Therefore, he does not propose to give up the wheel, although hereafter he will look carefully at the wheel before he goes upon his rides. Paderewski was fond of exercise, but he would take none that in any way endangered his wrists, fingers or hands. He found billiards a perfect exercise for himself, and he believed the game to be an admirable one for all piano players.—Holland in Philadelphia Press.

A Long Train.

A freight train composed of 81 loaded and a dozen empty cars passed through the city shortly before noon today. It was going west, and was one of the largest trains ever sent out from Conway.

A Honeymoon Eye Opener.

"While love," said the Cumminsville sage, "may make the young man oblivious of the flight of time during the honeymoon, the monthly gas bills kindly restore his balance in short order."—Cincinnati Enquirer.

Trains Were Late.

The train due in this city at 12:10 was 20 minutes late today, caused by heavy freight traffic near Alliance.

The train due at 8:20 this morning was 30 minutes behind time.

Drilling a Well.

Work was commenced yesterday drilling a gas well on the Gardner farm, in Hancock county.

Will Dance.

The Entre Nous club and their friends will dance at Rock Spring June 22.

Advertising in Germany.

German ways of advertising are considerably different from the pushing methods of the Americans. In the electric street cars in Leipzig what few advertising cards there are find a place on the ceiling instead of around and below it. In the theaters permanent signs appear above the stage setting. German ideas of the fitness of things are better than the Saxon's in this respect at least. Window displays are popular, and many of the windows of the large stores extend down to the floors of the basements.

Perhaps the chief mode of street or public advertisement in Leipzig is the use of a large number of circular columns, about 4 feet in diameter and 12 feet in height, which are stationed throughout the city in conspicuous places. On the cylindrical surfaces of these iron columns advertisements in three varieties are displayed. The form and style used are modest and are usually only small paper placards, of a great variety of colors, announcing the name of the article, its merits and uses. Here also are posted the opera and theater programmes, in type not much larger than the ordinary newspaper size. These advertising posts correspond in a measure to the fence display advertising so much used in American cities, but are really not much more than public bulletin boards.—New York Press.

When Fitz-Hugh Lee Ran For Governor.

General Lee has been handicapped by a great name. It has stimulated his pride and ambition, but it has not inspired any vanity. When I asked him if this heritage had helped or hindered him, he said:

"It has been a heavy load. I have had the reputation of a lot of ancestors as well as my own to look after. Whatever good I have done has been credited to them, and whatever of evil has been charged to me and magnified, because people said they had a right to expect much better things of a man of my blood and breeding.

"When I was running for governor of Virginia, John Wise said that if my name had been Fitz-Hugh Smith I never would have secured the nomination. I replied that I had known a good many good men named Smith and would have been as proud of that name as of the one I wore. In that way I got the votes of all the Smiths in Virginia and a letter from a man who told me 'never to forget Captain John Smith, our first settler, who killed Pocahontas.'"

—Chap Book.

Need of Covering During Sleep.

The reason it is necessary to be well covered while sleeping is that when the body lies down it is the intention of nature that it should rest, and the heart especially should be relieved of its regular work temporarily. So that organ makes ten strokes a minute less than when the body is in an upright posture. This means 600 strokes in 60 minutes. Therefore in the eight hours that a man usually spends in taking his night's rest the heart is saved nearly 5,000 strokes. As it pumps six ounces of blood with each stroke, it lifts 30,000 ounces less of blood in this night's session than it would during the day, when a man is usually in an upright position. Now, the body is dependent for its warmth on the vigor of the circulation, and as the blood flows so much more slowly through the veins when one is lying down the warmth lost in the reduced circulation must be supplied by extra coverings.—Milwaukee Wisconsin.

Boy Soldiers.

The best material of which to make fighting soldiers is found in boys from 16 to 21. This is the expression of old commanders. There were many captains in the civil war who were under 20 years of age. There were brigadier generals only 21 years old. General Grant was under 40 when he entered the war. Stonewall Jackson had won immortal fame at 38 and died at 39. General Sheridan was a general at 30. Fitz-Hugh Lee was a major general at 29. Alexander had conquered the world before he was 33. Napoleon became master of Egypt, crossed the Alps and fought the battle of Marengo at 30. Young men make the best soldiers. The civil war was fought by young men and boys.—Knoxville Tribune.

Wouldn't Alter His Picture.

A friend of Arnold Bocklin relates that when that eminent artist was quite a young man he married a Roman girl, beautiful and accomplished, but as poor as the young artist. Their daily meal often consisted of a pot of beans. Yet the artist would not sacrifice his ideals for any sum of money. One time he painted a landscape for a wealthy German merchant, who, as the prospective owner of the picture, asked him to make certain changes in it. This the bean eating painter refused to do, though the price offered him for the altered picture was nearly \$1,000.

Their Object.

Mr. and Mrs. Gaswell had moved only a few weeks before into a fashionable neighborhood and were preparing to issue invitations for their silver wedding.

"I'm afraid," said Mr. Gaswell, looking dubiously at the pile of costly stationery before him, "most of these will go begging."

"Why, James," responded Mrs. Gaswell, "that's what we are sending them out for."—New York World.

TO BUSINESS MEN.

The combination prices of the NEWS REVIEW, advertisement in paper and bills, from said advertisement, are cheaper than any other daily paper in the city, while the workmanship, material and inks made use of are incomparably superior to those of would-be competitors. Test the matter. We will prove the truth of our assertion.

Printed envelopes, NEWS 6 or 8 in size, at the NEWS REVIEW, from 95 cents per thousand up, according to quality. We defy competition in workmanship or material.

LOCAL BREVITIES.

EX-SENATOR B. K. BRUCE.

How He Was Once Treated by a Mississippi Steamboat Captain.

On one of his latest visits to New York the late Mr. Bruce told of an experience which he had just after he was elected senator from Mississippi, and it was an experience which illustrates the tact and good sense which always characterized him. It was announced that the senator would go to Washington from his Mississippi home by one of the Mississippi steamboats, at least as far as St. Louis on his way. The captain, a man of the name of Lathers, was a typical Mississippi steamboat captain, and he was reported to have said that he would show the black senator when he got aboard of his boat that he would have to keep his place on that boat, and if he put on any airs because he happened to be senator the captain would teach him manners.

As soon as Bruce boarded the steamboat he sought the captain, and he said to him: "Captain Lathers, I am going to Washington, and a part of the way as passenger on your steamboat. My name is Bruce, and possibly you may have heard of me. What I wanted to say is that I know perfectly well what the feeling of many people who are travelers regarding persons of my color is. They cannot help it, and I cannot help it, and I am going to give them no occasion for any annoyance while I am a passenger on your boat. I simply ask you that you see to it that I am made as comfortable as possible, and I assure you that you will have no reason for complaint."

The bluff captain stepped back a pace or two, looked Bruce over, and then held out his hand and said with great emphasis: "By —! You shall sit at my table, you shall sit on my right hand on the entire trip, and if any man objects he will have to fight me. A man who can talk as you have and who is as fair as you are is a — sight better fitted to be a United States senator than some of the white senators I have carried on this boat," and on that entire trip of some three days the captain made Bruce his guest.—Holland in Philadelphia Press.

HOFMANN'S COSTLY SPRAIN.

The Pianist's Recent Accident Deprived Him of Earning at Least \$2,500.

Although Josef Hofmann, the pianist, looks upon the accident which he met with recently as an experience any wheelman is likely to meet, yet his father and those who have the business management of his concert tour are hardly over their fright and have been contemplating with terror almost unspeakable the probable consequences had Hofmann broken a bone in his wrist or his hand instead of simply spraining some of his muscles.

The accident was a costly one, for it deprived Hofmann of the opportunity of earning at least \$2,500, which he was to have received for the series of concerts which he was obliged to cancel. On the afternoon before the accident happened he had played with Thomas' orchestra to a wildly enthusiastic audience, which packed the great Metropolitan Opera House, in New York from the orchestra seats to the remote gallery almost in the clouds, and he played superbly. His success was already established and there seemed every chance that in his tour through the country he was to enjoy the experiences which characterized Paderewski.

Yet Hofmann, who is a youth of a great deal of common sense, says that it is as necessary for a pianist to get exercise and maintain his strength as it is for him to practice the scales. Therefore, he does not propose to give up the wheel, although hereafter he will look carefully at the wheel before he goes upon his rides. Paderewski was fond of exercise, but he would take none that in any way endangered his wrists, fingers or hands. He found billiards a perfect exercise for himself, and he believed the game to be an admirable one for all piano players.—Holland in Philadelphia Press.

A Long Train.

A freight train composed of 81 loaded and a dozen empty cars passed through the city shortly before noon today. It was going west, and was one of the largest trains ever sent out from Conway.

A Honeymoon Eye Opener.

"While love," said the Cumminsville sage, "may make the young man oblivious of the flight of time during the honeymoon, the monthly gas bills kindly restore his balance in short order."—Cincinnati Enquirer.

Trains Were Late.

The train due in this city at 12:10 was 20 minutes late today, caused by heavy freight traffic near Alliance. The train due at 8:20 this morning was 30 minutes behind time.

Drilling a Well.

Work was commenced yesterday drilling a gas well on the Gardner farm, in Hancock county.

Will Dance.

The Entre Nous club and their friends will dance at Rock Spring June 22.

Advertising in Germany.

German ways of advertising are considerably different from the pushing methods of the Americans. In the electric street cars in Leipzig what few advertising cards there are find a place on the ceiling instead of around and below it. In the theaters permanent signs appear above the stage setting. German ideas of the fitness of things are better than the Saxon's in this respect at least. Window displays are popular, and many of the windows of the large stores extend down to the floors of the basements.

Perhaps the chief mode of street or public advertisement in Leipzig is the use of a large number of circular columns, about 4 feet in diameter and 12 feet in height, which are stationed throughout the city in conspicuous places. On the cylindrical surfaces of these iron columns advertisements in great variety are displayed. The form and style used are modest and are usually only small paper placards, of a great variety of colors, announcing the name of the article, its merits and uses. Here also are posted the opera and theater programmes, in type not much larger than the ordinary newspaper size. These advertising posts correspond in a measure to the fence display advertising so much used in American cities, but are really not much more than public bulletin boards.—New York Press.

When Fitz-Hugh Lee Ran For Governor.

General Lee has been handicapped by a great name. It has stimulated his pride and ambition, but it has not inspired any vanity. When I asked him if this heritage had helped or hindered him, he said:

"It has been a heavy load. I have had the reputation of a lot of ancestors as well as my own to look after. Whatever good I have done has been credited to them, and whatever of evil has been charged to me and magnified, because people said they had a right to expect much better things of a man of my blood and breeding."

"When I was running for governor of Virginia, John Wise said that if my name had been Fitz-Hugh Smith I never would have secured the nomination. I replied that I had known a good many good men named Smith and would have been as proud of that name as of the one I wore. In that way I got the votes of all the Smiths in Virginia and a letter from a man who told me 'never to forget Captain John Smith, our first settler, who killed Pocahontas.'"—Chap Book.

Need of Covering During Sleep.

The reason it is necessary to be well covered while sleeping is that when the body lies down it is the intention of nature that it should rest, and the heart especially should be relieved of its regular work temporarily. So that organ makes ten strokes a minute less than when the body is in an upright posture. This means 600 strokes in 60 minutes. Therefore in the eight hours that a man usually spends in taking his night's rest the heart is saved nearly 5,000 strokes. As it pumps six ounces of blood with each stroke, it lifts 30,000 ounces less of blood in this night's session than it would during the day, when a man is usually in an upright position. Now, the body is dependent for its warmth on the vigor of the circulation, and as the blood flows so much more slowly through the veins when one is lying down the warmth lost in the reduced circulation must be supplied by extra coverings.—Milwaukee Wisconsin.

Boy Soldiers.

The best material of which to make fighting soldiers is found in boys from 16 to 21. This is the expression of old commanders. There were many captains in the civil war who were under 20 years of age. There were brigadier generals only 21 years old. General Grant was under 40 when he entered the war. Stonewall Jackson had won immortal fame at 38 and died at 39. General Sheridan was a general at 30. Fitz-Hugh Lee was a major general at 29. Alexander had conquered the world before he was 33. Napoleon became master of Egypt, crossed the Alps and fought the battle of Marengo at 30. Young men make the best soldiers. The civil war was fought by young men and boys.—Knoxville Tribune.

Wouldn't Alter His Picture.

A friend of Arnold Bocklin relates that when that eminent artist was quite a young man he married a Roman girl, beautiful and accomplished, but as poor as the young artist. Their daily meal often consisted of a pot of beans. Yet the artist would not sacrifice his ideals for any sum of money. One time he painted a landscape for a wealthy German merchant, who, as the prospective owner of the picture, asked him to make certain changes in it. This the bean eating painter refused to do, though the price offered him for the altered picture was nearly \$1,000.

Their Object.

Mr. and Mrs. Gaswell had moved only a few weeks before into a fashionable neighborhood and were preparing to issue invitations for their silver wedding.

"I'm afraid," said Mr. Gaswell, looking dubiously at the pile of costly stationery before him, "most of these will go begging."

"Why, James," responded Mrs. Gaswell, "that's what we are sending them out for."—New York World.
